

3/12/2025

A site inspection was performed at Bellevue Christian School (BCS) where BCS staff accompanied Clyde Hill staff around the site. Effective practices were observed and staff made recommendations for minor improvements. BCS and Clyde Hill staff continued to coordinate on the recommendations and to share information post inspection. In April 2024, BCS contracted with AQUALIS to perform line jetting and catch basin cleaning services.

All remaining businesses and schools on the Inventory are scheduled to be inspected in 2025.

Below is a Source Control Inventory summarizing the coordination activities and inspection work performed to date.

Performed	Planned	
Outreach and Inspection Program		
Coordination	Inspected	Follow Up
Jan-25	Planned 2025	Planned 2025
Jan-25	Jan-25	Planned 2025
Sep-2023 Jan-2025	Planned 2025	Planned 2025
