Re: Industrial Wastewater Operations and Maintenance Manual

Dear Kert Brown:

The Department of Ecology (Ecology) received your company's Industrial Wastewater Operations & Maintenance Manual describing the operations and maintenance of your facility. This Manual has been reviewed by Anna R. Wallace Ph.D. and John Y. Diamant, P.E., a registered Professional Engineer at Ecology's Southwest Region Office.

In accordance with WAC 173-240-150, the subject document is hereby **APPROVED** as meeting the intent of an Operation and Maintenance Manual.

This office is to be notified immediately of any proposed changes or revisions to the approved document. Any such changes or revisions must be issued in the form of addenda, technical appendices, or supplemental reports to the original approved documents and must be approved in writing by the Department of Ecology.

The Department of Ecology's review and approval of this document is to assure compliance and consistency with the appropriate rules, regulations, guidelines, planning and design criteria, and/or other similar documents. The Department of Ecology's review shall not be construed as a quality control check or as approval with respect to the completeness, accuracy, or adequacy of this document.

This approval shall not relieve the owner(s) of the proposed facilities from any other approvals as may be required by other governmental reviewing agencies. In addition, this approval does not relieve the owner or the owner's engineer from the responsibilities and liabilities that result from noncompliance with water pollution laws and regulations during the design, construction or operation of the proposed facilities. Also, this approval does not relieve the owner or the owner's engineer from the responsibilities for the technical adequacy and/or accuracy of the contents of this document.
