Re: **WARNING LETTER:** Permit No. WA0031721; Washington Bulb Company;

Dear Mr. Roozen:

The Department of Ecology does not have a record of receiving Discharge Monitoring Report(s) (DMR(s)) from your facility for the following monitoring periods indicated in the table below:

<u>DATE</u>	<u>YEAR</u>
June	2012
July	2012
August	2012

Your permit requires you to submit DMR(s) to the Department even if you had no discharge. Failure to submit DMRs is a violation of your permit conditions. Please submit the missing DMR's within 30 days of receiving this letter.

The DMR is the principal tool used to evaluate compliance with permit requirements. The Department places great importance on timely submittal of complete and accurate DMRs. Failure to comply with the conditions of your permit could result in the Department taking formal administrative enforcement action, including issuing orders and penalties.

If you have any questions please give me a call at 425-649-7214.

Sincerely,

Chris Smith
Compliance Specialist
