**Re: Revised State Waste Discharge Application for Temporary Permit No. ST0501309
Intergate Columbia Buildings A & B (Revised Application Requests to add Buildings
D&C)**

Dear Ken Stickley:

Thank you for submitting a revised application for a temporary State Waste Discharge Permit no. ST0501309. The Department of Ecology (Ecology) acknowledges receiving the revised application on January 10, 2025. Matthew Durkee was assigned to review and approve your revised application.

Your revised application is a matter of public record. State Water Pollution Control Laws requires publishing of a legal Public Notice which describes the discharge for any operation. This is to give the public a chance to be aware of, and comment on any wastewater treatment and disposal facilities. In compliance with this requirement, enclosed is a copy of the Public Notice describing your wastewater discharge. The Department of Ecology will publish this notice in the "Legal Classified Section" of the **Douglas County Empire Press** on **April 24, 2025**, and **May 1, 2025**. There will be a 30 day comment period from the last publication date. Comments received during this period will be considered in the formulation of the temporary permit.

Since the Department is unable to act upon the application during the 60 days following acceptance on April 18, 2025, according to RCW 90.48.200, the application and attachments will provide the basis for a **Temporary Permit**. That permit will **become effective 30 days after the final publication date**, provided no significant comments are received.

Intergate Columbia LLC

The Temporary Permit will remain valid for up to five years or until a formal permit can be written.

If you have any questions about our review of the application or the permitting process, please contact Matthew Durkee, your interim permit manager at (509) 379-4384 or matthew.durkee@ecy.wa.gov.

Sincerely,

Joy Espinoza (signed electronically) 04/21/2025
