**Regarding: National Pollutant Discharge Elimination System Waste Discharge  
(NPDES) Permit No. WA001007 – 30-Day Due Date Extension  
Request for the Outfall Evaluation Report**

To Aziz Mahar,

Per Graymont Western US, Inc.'s (Graymont) NPDES permit S8 OUTFALL EVALUATION, *the permittee must submit the inspection report to Ecology through the Water Quality Permitting Portal – Permit Submittals application no later than May 31, 2025.* Graymont requests a due day extension of June 30, 2025 for the Outfall Evaluation report. Due to unexpected challenges with contract terms and conditions between Graymont and our contractor, Graymont is requesting a 30-day extension without the consequence of a permit violation. Graymont does not foresee any negative impacts to the outfall during this extended time.

Sincerely,

Jon Anderson
