Re: National Pollutant Discharge Elimination System (NPDES) Discharge Permit No. WA0031682
Public Notice and Draft Permit; City of Seattle Combined Sewer System

Dear Ellen Stewart:

We have enclosed a draft NPDES permit and fact sheet for your review. Please read the documents carefully and submit your comments as soon as possible to Sean Wilson.

State law requires the circulation and publication of notices which describe the proposed issuance, renewal or extension of permits. This is intended to allow the public to be aware of and comment on such actions.

Enclosed is a copy of the public notice published in the Seattle Times on June 27, 2025. A similar notice will be emailed from this office to agencies, groups and individuals that have requested such notices for this geographic area.

The Department shall provide a period of not less than thirty (30) days following the date of the publication of the public notice during which time interested persons may submit their written views on the draft permit. You may submit additional comments on the draft permit throughout the duration of the public comment period.

If you have questions regarding the draft permit and fact sheet, please contact Sean Wilson at 425-577-4864 or by email at sean.wilson@ecy.wa.gov.

Sincerely,

Tricia Miller
Permit Coordinator
