Comments: As requested by the Department of Ecology, we are submitting our proposed changes in two separate Excel spreadsheets:

1. "Ecology's Required Updates" – This includes changes required by Ecology that we have identified as significant.
2. "Pierce County Additional Updates" – This includes Pierce County-specific changes beyond Ecology's List of Significant Updates that we also consider significant.

We have also included several supporting documents that provide technical justification and further detail for specific proposed changes. The supporting documents are listed in the document titled 'Summary Table of Supporting Documents'. These materials are provided for context and are referenced where relevant in the tables.

Please let us know if a follow-up discussion would be helpful. We're happy to schedule a meeting to go over any proposed changes in more detail.
