**RE: Application for Renewal and Operations and Maintenance Manual Review Comments
Sunopta Healthy Fruit Snacks, Permit No. ST0009253**

Dear Terry Llewellyn

The Department of Ecology (Ecology) received your revised Application for permit renewal resubmitted on June 11, 2025. Ecology has noted the following deficiencies, Please **resubmit by July 23, 2025**:

- Page 9: The measurement value chart only includes the maximum values for BOD and Total Suspended Solids. The chart values should include the minimum, maximum, and average measurements calculated from the recorded values over the past year, as well as the number of analyses done.

Additionally, we received components of the Operations and Maintenance (O&M) Manual on February 28, 2022, April 19, 2023, and May 21, 2025 with revisions dated April 30, 2025 and have the following comments:

- Please review Ecology's previous comments sent to Joe Bono on March 24, 2025 to ensure ALL comments have been addressed and **resubmit by August 9, 2025**. O&M Comments are enclosed.
- When submitting multiple document such as a renewal application, Spill Plans, or O&M Manual, they need to be uploaded separately within the appropriate permit sections in WQWebPortal.

Our office is to be notified in the future of any changes or proposed expansions to the facility and its processes 180 days before the changes are put into effect.
