Toxics Cleanup Program

Department of Ecology, P.O. Box 47600, Olympia WA 98504-7600

August 26, 2003

Publication # 03-09-041w

HAZARDOUS SITES LIST & NOTICE OF HAZARD RANKING

This issue is an updated Hazardous Sites List as required by WAC 173-340-330. It includes all sites that have been assessed and ranked using the Washington Ranking Method. Also listed are National Priorities List sites. Additions to the list, changes in remedial status of sites on the list, and removals from the list are published twice a year. Placement of a site on the Hazardous Sites List does not, by itself, imply that persons associated with the site are liable under Chapter 70.105D RCW. For additional information about a site on this list, please contact the appropriate indicated person. Direct questions regarding Hazardous Sites List or Site Register circulation to Teri Fisher (425) 649-4446 or e-mail tfis461@ecy.wa.gov. Ecology's telecommunications devices for the deaf (TTY) numbers are: Headquarters 711 or (800) 833-6388, Southwest Regional Office (360) 407-6306, Northwest Regional Office (425) 649-4259, Central Regional Office (509) 454-7673, Eastern Regional Office (509) 458-2055.

HOW A SITE GETS ON THE HAZARDOUS SITES LIST

Sites on the Hazardous Sites List (excluding NPL sites) have undergone a preliminary study called a Site Hazard Assessment (SHA). An SHA provides Ecology with basic information about a site. Ecology then uses the Washington Ranking Method (WARM) to estimate the potential threat the site poses, if not cleaned up, to human health and the environment. The estimate is based on the amount of contaminants, how toxic they are, and how easily they can come in contact with people and the environment. Sites are ranked relative to each other on a scale of one to five. A score of one represents the highest level of concern relative to other sites, and a score of five the lowest. Hazard ranking helps Ecology target where to spend cleanup funds. However, a site's actual impact on human health and the environment, public concern, a need for an immediate response, and available cleanup staff and funding also affect which sites get first priority for cleanup.

HOW TO ACCESS DEPARTMENT OF ECOLOGY SITE FILES

To review a file or record pertaining to a site on the Hazardous Sites List, please contact the Public Disclosure Coordinator listed for the region in which the site resides.

- Central Regional Office – Roger Johnson, 15 W. Yakima Ave. N., Yakima 98902-3387, (509) 454-7658, rjoh461@ecy.wa.gov
- Eastern Regional Office – Johnnie Harris, N. 4601 Monroe St., Spokane 99205-1295, (509) 329-3415, johh461@ecy.wa.gov
- Industrial Section – Kathy Vermillion, 300 Desmond Dr., Lacey 98503, (360) 407-6916, kver461@ecy.wa.gov
- Northwest Regional Office – Sally Perkins, 3190 160th Ave. SE, Bellevue 98008-5452, (425) 649-7190, sper461@ecy.wa.gov
- Northwest Regional Office – Sally Alexander, 3190 160th Ave. SE, Bellevue 98008-5452, (425) 649-7239, saal461@ecy.wa.gov
- Nuclear Waste Program – Valarie Peery, 1315 W. 4th Ave., Kennewick 99336, (509) 736-3097, vpee461@ecy.wa.gov
- Site Cleanup/Underground Storage Tank Unit – Carol Dorn, 300 Desmond Dr., Lacey 98503, (360) 407-7224, cesg461@ecy.wa.gov
- Southwest Regional Office – Sherri Greenup, 300 Desmond Dr., Lacey 98503, (360) 407-6365, swal461@ecy.wa.gov

Ecology provides additional information about each site through its various site lists located at: <http://www.ecy.wa.gov/programs/tcp/sites/sites.html>

Hazardous Sites List

SITE REGISTER SPECIAL ISSUE - AUGUST 26, 2003

Sites Removed from the Hazardous Sites List

Ecology may remove a site from the list only after determining that all remedial actions except confirmational monitoring have been completed and compliance with the cleanup standards has been achieved at the site, or the listing was erroneous.

County	Site Name	Address	City	Zip Code	Rank
Adams	Burlington Northern Othello	Broadway & Main	Othello	99344	1
Franklin	Glens Metals	1104 E Lewis	Pasco	99301	5

Hazardous Sites List

SITE REGISTER SPECIAL ISSUE - FEBRUARY 29, 2000

Awaiting Further Remedial Action: Only a Site Hazard Assessment has been completed at the site.

Remedial Action in Progress: Ecology has oversight. This can include sites undergoing: 1) Remedial Investigation/Feasibility Study; 2) Interim Action (any remedial action that partially addresses the cleanup of a site); 3) Cleanup Action (active construction).

Construction Complete: This category includes sites where all major cleanup construction has been completed, but various levels of operation/maintenance/monitoring may continue to be performed at the site.

Independent Remedial Action: This category includes all sites with independent remedial actions underway currently or completed but work not verified by the department, or sites that have entered Ecology's Voluntary Cleanup Program.

Hazardous Sites List: A list of ranked sites that require further remedial action.

Interim Action: Any remedial action that partially addresses the cleanup of a site.

National Priorities List (NPL): Environmental Protection Agency (EPA) list of hazardous waste sites identified for possible long-term response. These sites are either managed by the State under MTCA requirements, managed by EPA under CERCLA requirements, managed by both (co-lead), or under a Federal Facilities Tri-party Agreement.

Remedial Action: Any action to identify, eliminate, or minimize any threat posed by hazardous substances to human health or the environment, including any investigative and monitoring activities of any release or threatened release of a hazardous substance and any health assessments or health effects studies.

Site Hazard Assessment (SHA): An assessment to gather information about a site to confirm whether a release has occurred and to enable Ecology to evaluate the relative potential hazard posed by the release. If further action is needed, a Remedial Investigation/Feasibility Study is undertaken.

State Remedial Investigation/ Feasibility Study: A study to define the extent of the problems at a site and evaluate alternative cleanup actions. A comment period on the final report is required. Ecology selects the preferred alternative after reviewing these comments.

Washington Ranking Method (WARM): Method used to rank sites placed on the Hazardous Sites List. A report describing this method is available from the department.
