

# The Everett Smelter Cleanup

from Ecology's Program, Toxics Cleanup

July 9, 2007

## Sorry we missed you again.

The Department of Ecology (Ecology) hired Science Applications International Corporation (SAIC) and EnviroIssues to help with this project. Staff from EnviroIssues (representing Ecology) tried to visit your home today.

### Mapping and sampling to occur in your neighborhood.

#### We wanted to make sure you received a packet in the mail that contained:

- A cover letter
- Everett Smelter Mapping and Sampling fact sheets.
- Access agreement that explains the site mapping and sampling work that Ecology has planned for your neighborhood.

At the June 5<sup>th</sup> orientation meeting, participants learned about the work planned for the neighborhood and had questions answered by project team members.

Please notify Ecology whether you intend to participate in the mapping and sampling process. A signed access agreement needs to be submitted to Ecology by **July 20, 2007**. If you do not wish to have your property mapped and sampled, please write "**DECLINE**" or check the appropriate box on your access agreement form and sign it. You may also write a letter or call us if you do not wish to participate. Please mail the form in the pre-addressed envelope.

### For Technical Questions, please contact:

**Site Manager:** Jerome Cruz

**Telephone number:** (425) 649-7094

**E-mail:** [jcru461@ecy.wa.gov](mailto:jcru461@ecy.wa.gov)

**Mail:** Department of Ecology  
3190 160th Avenue SE  
Bellevue, WA 98008
