Ecology proposes to award approximately \$41 million in funds from the Centennial Clean Water Program, \$1.9 million from the Clean Water Act Section 319 Nonpoint Source Fund, and \$66 million from the Washington State Water Pollution Control Revolving Fund to fund approximately 36 activity and facility projects during the FY 2008 funding cycle. Ecology also proposes to award \$25 million for 11 proviso projects. These awards are based on directives and appropriations from the Washington State Legislature. The proposed projects will help improve and protect water quality for human health, aquatic life, fish habitat, recreation, and other important uses.
