

Proposed Removal from the Hazardous Sites List; Restrictive Covenant Filed

The Washington State Department of Ecology (Ecology) is proposing to remove the Brewster Elementary School and Softball Field (Site) located at 502 South 7th Street in Brewster, from the Hazardous Sites List. The Site is currently ranked a "3." Sites can be ranked from "1" to "5". A rank of "1" is the highest level of environmental concern compared to other sites on the list, and a rank of "5" is the lowest.

Site Background

As a former old orchard, the Site was subjected to historical pesticide applications. Lead arsenate was widely used to control the codling moth prior to 1950. Unfortunately, this resulted in lead and arsenic contamination at many former orchards throughout central Washington.

In 2002, Ecology staff tested the soil at the Site and found lead and arsenic contamination exceeding state cleanup levels. During the summer of 2006, Ecology staff managed a cleanup at the Site designed to reduce or eliminate the lead and arsenic contamination.

It involved two major steps: 1) placement of geotextile fabric, and 2) import and placement of a clean topsoil cap. New seed was planted to establish grass, and new infield material was imported.

Ecology staff verified through confirmational sampling that the contamination had been completely covered with a layer of clean topsoil.

Following cleanup, an environmental covenant was recorded for the property with the Okanogan County Auditor. The purpose of the environmental covenant is to provide a permanent legal record of the contamination that remains on the property, and to prevent activities at the site that might disturb or damage the soil cap.

Now Ecology proposes removing the Site from Hazardous Sites List. It no longer poses a threat to human health and the environment.

Comments Accepted

May 15, 2008 – June 16, 2008

Submit Comments and Technical Questions to:

Jeff Newschwander - Site Manager
WA Department of Ecology

Public Comment Invited

Ecology is asking for your comments on the completed cleanup and removal of this site from the Hazardous Sites List.

The Brewster Elementary School and Softball Field site is located at 502 S 7th Street, Brewster.

You are invited to:

- **Review** the Interim Action Report and Restrictive Environmental Covenant.
- **Send** your comments to Ecology for consideration. Comments will be accepted *May 15, 2008 through June 16, 2008.*

See the box on the front for details.

For information about other opportunities for public involvement such as meetings, hearings, open houses and workshops, please visit Ecology's Public Involvement Calendar at <http://apps.ecy.wa.gov/pubcalendar/calendar.asp>.

While you are at the calendar page, you may click on the link for Frequently Asked Questions about Effective Public Commenting and learn more about the public comment process.

What can you do?

1. Read about the cleanup in this handout.
2. To get more detailed information, review the supporting documents at the locations listed on the back page.
3. Write down your comments and questions. Send them to the Department of Ecology at the address shown on the back page.

We appreciate your comments and concerns. *Thank you.*
