FORMAL CLEANUPS

Ecology oversees complex cleanup sites to ensure that your health and that of the environment are protected.

CLARK COUNTY

Caribou Realty, 8914 NE ST. Johns Road, Vancouver Facility Site ID# 34583642

Negotiations for an Agreed Order

Ecology and the current co-owners of the Caribou Realty Group site property have begun negotiations for an Agreed Order to complete a Remedial Investigation and Feasibility Study at the Caribou Realty site in Vancouver. Investigations of the property revealed that perchloroethylene, a solvent, was above MTCA cleanup levels in soil and groundwater. A portion of the building on the property housed a dry cleaning facility for an undetermined period of time prior to 1981. Soil and groundwater contamination occurred while the dry cleaning tenant was in operation.

For more information or to submit written comments, please contact **Rod Schmall**, Site Manager, at the Ecology address listed above or at 360/690-4798 or e-mail rosce461@ecy.wa.gov.

Park Laundry, 122 N Main Avenue, Ridgefield Facility Site ID# 8100630

**Public comment period:
9/8/09 – 10/8/09**

Agreed Order for Remedial Investigation, Feasibility Study and Draft Cleanup Action Plan

Ecology and the Union Ridge Investment Co. are entering into an Agreed Order to begin investigating contamination found on and around a property in Ridgefield.

The Agreed Order (legal document) requires Union Ridge Investment Co. to complete the following:

- A Remedial Investigation to define the full nature and extent of contamination. Interim actions (partial cleanup actions) may be taken if necessary to prevent the spread of contamination.
- A Feasibility Study to determine possible cleanup alternatives.
- A draft Cleanup Action Plan outlining the selected cleanup actions.

The Park Laundry property, located at 122 N. Main Avenue in Ridgefield, was used as a dry cleaner from approximately 1965 - 77 although the exact dates are not known. During that time, it is suspected that chemicals typically used during dry cleaner operations (volatile organic chemicals) were released to the environment. The property was purchased by Union Ridge Investment Co. in 1975.

Investigations to date have confirmed the presence of tetrachloroethene (PCE) above state cleanup standards in both soil and groundwater. It was also discovered that contamination in groundwater is migrating off property and onto adjacent properties to the north. Investigations done in 2002 and 2006 confirmed the presence of PCE and trichloroethene (TCE) in groundwater samples at two nearby properties.

In 2007, Ecology referred the property to the United States Environmental Protection Agency (USEPA) for additional investigations under the federal Superfund Program. In 2008, USEPA conducted a site investigation of the property. After confirming presence of contamination, the site was transferred back to the Department of Ecology for additional investigation and to expedite cleanup.

The property was evaluated by Ecology and has been given a Washington Ranking Method rank of “3” (on a scale of 1 to 5 where “1” represents the highest level of concern). It is now part of the formal cleanup program under the Model Toxics Control Act.

The Agreed Order is available for public review and comment until October 8, 2009 at the following locations:

- Ridgefield Library 210 Main Avenue, Ridgefield, WA 98642-9394 **360/887-8281**
- Ecology Southwest Regional Office, 300 Desmond Drive, Lacey, WA 98504-7775. (By appointment only: Contact **Debbie Nelson** at **360/407-6365** or e-mail **Dene461@ecy.wa.gov**.)
- Ecology’s website: http://www.ecy.wa.gov/programs/tcp/sites/parkLaundry/parkLaundry_hp.html

To submit written comments or for technical questions, contact **Guy Barrett**, Site Manager, at the Ecology address listed above or at **360/407-7115** or e-mail **gbar461@ecy.wa.gov**.

For public involvement information, please contact **Meg Bommarito**, Public Involvement Coordinator at **360/407-6255** or e-mail **Mbom461@ecy.wa.gov**.

KING COUNTY

SeaTac Development formerly MasterPark Lot C site, 16025-16223 International Blvd in SeaTac Facility Site ID# 38258847

Responsiveness Summary

Ecology completed the public comment period for the Agreed Order and Public Participation Plan for the SeaTac Development formerly MasterPark Lot C site. The SeaTac Development site is located at 16025-16223 International Blvd in SeaTac, Washington. Sea-Tac Investments LLC currently leases the property from ANSCO Properties, LLC and developed it for use as an airport

parking lot. Previously, various companies operated businesses there, some of which utilized fuel products and underground storage tanks. Scarsella Bros. Inc. once owned the property and operated a construction yard on the property until the 1970s.

A responsiveness summary was written to address the public comment during the comment period. You now can view the responsiveness summary at the following locations listed below:

- Valley View Library, 17850 Military Road South, SeaTac, WA 98188
- Ecology Northwest Regional Office, 3190 160th Ave. SE, Bellevue, WA 98008-5482. (Please call **Sally Perkins** at **425/649-7190** for an appointment. Hours: Tuesday – Thursday, 8:00 AM – 12:00 PM and 1:00 PM – 4:30 PM)
- Ecology’s website: http://www.ecy.wa.gov/programs/tcp/sites/seaTacDev/seaTacDev_html

For more information or to submit written comments, please contact **Jerome Cruz**, Site Manager, at the Ecology address listed above or at **425/649-7094** or e-mail **jcru461@ecy.wa.gov**.

LEWIS COUNTY

Lewis County Central Shop, 109 Forest Napavine Road, Chehalis Facility Site ID# 55886223

**Public comment period:
9/28/09 – 10/28/09**

Agreed Order for Draft Cleanup Action Plan

Ecology and Lewis County are entering into an Agreed Order (legal agreement) to finish cleaning up contamination at the Lewis County Central Shop cleanup site. Lewis County is required to implement a Cleanup Action Plan which involves:

- Groundwater treatment to remove contamination.
- Groundwater monitoring to evaluate

the effectiveness of treatment and natural breakdown of contaminants over time.

- Development of institutional controls which will prevent any installation of new wells near the contamination until cleanup levels are reached.

The Lewis County Central Shop is an active vehicle maintenance shop located at 109 Forest Napavine Road in a rural area 4 miles south of Chehalis. There are currently five buildings on the 4.4 -acre property.

Lewis County has used the property since the late 1950s for a variety of activities including general automotive repair and maintenance, equipment washing and storage. These activities resulted in the release of contamination to the site.

In 1998, during routine water testing, Lewis County found elevated levels of solvents (trichloroethene (TCE) and tetrachloroethene (PCE)) and several benzene compounds in the water supply for the property. Three chemicals were above federal standards for drinking water. In response, the County established a public water supply to the Shop.

The County Department of Health sampled 20 private wells near the property and found one private well (1,000 feet away) with TCE and PCE above federal drinking water standards. Lewis County established a public drinking water source to this home. In 2000, Ecology entered into an Agreed Order with the County and began investigating the nature and extent of contamination.

Since contamination was discovered, the County has taken several steps to reduce the level of contamination in groundwater and soil. However, some contamination remains on-site and off-site in groundwater. A Feasibility Study was done to examine possible cleanup alternatives. A cleanup remedy is now being proposed to continue treatment of contamination.

The Agreed Order, the draft Cleanup Action Plan and the Remedial Investigation and Feasibility Study Reports are available for public review and comment until October 28, 2009 at the following locations:

- Chehalis Timberland Library, 400 N. Market Blvd, Chehalis, WA 98532-2628 **360/748-3301**

- Ecology Southwest Regional Office, 300 Desmond Drive, Lacey, WA 98504-7775. (By appointment only: Contact **Debbie Nelson** at **360/407-6365** or e-mail **Dene461@ecy.wa.gov**.)

- Ecology's website: **http://www.ecy.wa.gov/programs/tcp/sites/lewisCntyCntrlShop/lewisCntyCntrlShop_hp.html**

To submit written comments or for technical questions, please contact **Guy Barrett**, Site Manager, at the Ecology address listed above or at **360/407-7115** or e-mail **gbar461@ecy.wa.gov**.

For public involvement information, please contact **Meg Bommarito**, Public Involvement Coordinator at **360/407-6255** or e-mail **Mbom461@ecy.wa.gov**.

PIERCE COUNTY

USG Highway 99, 7110 Pacific Highway East, Milton Facility Site ID# 1216

Public comment period:
9/14/09 – 10/15/09

Agreed Order for Investigation and Cleanup Available for Public Comment

Ecology is entering into an Agreed Order with USG (formerly US Gypsum). Under this legal agreement, USG will investigate and clean up contamination at the USG Highway 99 site. The address is 7110 Pacific Highway East in Milton, but the cleanup site includes all areas affected by contamination. USG is agreeing to:

- Investigate the nature and extent of pollution at the site.
- Evaluate possible cleanup options; and

- Clean up the site to meet state standards under the Model Toxics Control Act.

This site is located on the banks of the Hylebos Creek, which flows into the Hylebos Waterway and into Commencement Bay. Before 1985, USG used the site for disposing of waste from their rock wool manufacturing plant in Tacoma. Slag from the former Tacoma Asarco smelter was used as raw material for the rock wool. The slag contained arsenic—a toxic metal. As a result, before 1973, waste from USG's Tacoma plant contained arsenic.

The following cleanup documents are available to view and comment on:

- Agreed Order for investigation and cleanup.
- Public Participation Plan.

You may review these documents at:

- Pierce County Library, 1000 Laurel Street, Milton, WA 98354 **253/922-2870**

- Citizens for a Healthy Bay, 917 Pacific Avenue, Suite 100, Tacoma, WA 98402 **253/383-2429**

- Ecology Southwest Regional Office, 300 Desmond Drive, Lacey, WA 98504-7775. (By appointment only: Contact **Debbie Nelson** at **360/407-6365** or e-mail **Dene461@ecy.wa.gov**.)

- Ecology's website: **http://www.ecy.wa.gov/programs/tcp/sites/USG_Hwy_99/USG_hwy_99_hp.htm**

For more information or to submit written comments, please contact **Dom Reale**, Site Manager, at the Ecology address listed above or at **360/407-6266** or e-mail **Drea461@ecy.wa.gov**.

For public involvement information, please contact **Hannah Aoyagi**, Public Involvement Coordinator at **360/407-6790** or e-mail **Haoy461@ecy.wa.gov**.

THURSTON COUNTY

Citifor Inc., 13120 Tilley Road South, Maytown Facility Site ID# 1391

Public comment period:
9/8/09 – 10/8/09

Public Comment Period for an Agreed Order for a draft Cleanup Action Plan and Investigation Reports

Ecology and the Port of Tacoma (Port) are entering into an Agreed Order (legal document) to continue efforts to clean up contamination at the Citifor site in Maytown. The Port of Tacoma purchased the 745-acre Citifor Inc site property in 2006. The site was used historically to manufacture and distribute dynamite and other explosives. These operations, which ended in 1993, resulted in asbestos, lead, petroleum and dinitrotoluene (DNT) contamination of soil.

The Agreed Order requires the Port to:

- Monitor groundwater until contamination breaks down naturally (monitored natural attenuation) and decline to levels below state cleanup standards.
- Place an environmental covenant (deed restrictions) on the property to protect people from contamination remaining on site. The covenant will not allow installation of drinking water wells on the property until the contamination levels in groundwater are below state standards.
- Take additional cleanup actions if the contamination spreads or there is a need to speed up cleanup.

The Agreed Order, draft Cleanup Action Plan and Remedial Investigation and Feasibility Study reports are available for public review and comment until October 8, 2009 at the following locations:

- Tumwater Timberland Library, 7023 New Market Street, Tumwater, WA 98501 **360/943-7790**

- Ecology Southwest Regional Office, 300 Desmond Drive, Lacey, WA 98504-7775. (By appointment only: Contact **Debbie Nelson** at **360/407-6365** or e-mail **Dene461@ecy.wa.gov**.)

• Ecology's website: http://www.ecy.wa.gov/programs/tcp/sites/citifor/citifor_hp.html

To submit comments or if you have technical questions, please contact **Guy Barrett**, Site Manager, at the Ecology address listed above or at **360/407-7115** or e-mail gbar461@ecy.wa.gov.

For public involvement information, please contact **Meg Bommarito**, Public Involvement Coordinator at **360/407-6255** or e-mail Mbom461@ecy.wa.gov.

INDEPENDENT CLEANUPS

A property owner may conduct an independent cleanup of contamination and submit reports to Ecology. When a property owner applies to Ecology for review of their independent cleanup, the site enters the Voluntary Cleanup Program. After review, Ecology sends a letter to the property owner stating either that additional work is required to be removed from the list of hazardous waste sites or that no further action is needed.
