

Engineering Design Report Available for Public Review and Comment

In 2008, the Washington Department of Ecology (Ecology) entered into a Consent Decree with Murray Pacific Corp (Murray Pacific) to begin cleanup actions at the B&L Woodwaste site, located along the border of Milton and Fife, Washington.

As part of the agreement, Murray Pacific developed an Engineering Design Report to describe in detail how the first phase of the final cleanup actions would be implemented and maintained. Generally, the cleanup consists of construction of a sub-surface wall around the landfill, pumping and treatment of wetland groundwater and other remedial measures.

Ecology Wants Your Input!

Ecology is asking for your comments on the Engineering Design Report. You are invited to:

- **Review** the Engineering Design Report at one of the locations listed to the right.
- **Send** your comments to Ecology for consideration. **Comments will be accepted May 4 – June 4, 2009.**

What Happens Next?

- Ecology will review and consider comments received during the comment period and make changes to the Engineering Design Report if appropriate.
- At the end of the comment period, Ecology will respond to your comments in a responsiveness summary. This document will be sent to all those who commented and will be posted online.
- Additional Engineering Design Reports will be developed to complete the remaining phases of cleanup actions. These reports will be announced in the site register (http://www.ecy.wa.gov/programs/tcp/pub_inv/pub_inv2.html) and on the B&L Woodwaste Web site (see below).

For More Information

A full site history and information about the final cleanup actions are available on the B&L Cleanup Web site at http://www.ecy.wa.gov/programs/tcp/sites/B_L_Woodwaste/B_L_woodwaste_hp.htm.
