

Proposed Interim Action Now Available for Comment

The Crownhill Elementary School site is located at 1500 Rocky Point in the City of Bremerton, Kitsap County, Washington. The Site was originally used for the mining of sand and gravel during the 1930s. The resulting mining pits were used as a landfill for various materials including municipal and industrial wastes. The original Crownhill Elementary School was constructed on the Property in 1956. The school partially burned in 1993. Site work for a new school was started on the Property in 1994, and the new school opened in 1996.

In 2011, Ecology and the Bremerton School District conducted a comprehensive investigation of contamination resulting from past uses of the property. The proposed Interim Action will place clean soil and geofabric to cover and isolate two locations. The Interim Action will install a geotextile fabric and 1 foot of clean soil at two areas (north of the portable, approximately 4,900 square feet, and east of the asphalt turn around area, approximately 2,400 square feet). This will result in a minimum of two feet of clean soil covering these two areas that contain lead above state cleanup levels. At the completion of this Interim Action, all areas where lead in soil were observed to be above state cleanup levels at the Site will be covered with a minimum of two feet of clean soil, or an impervious surface, such as asphalt or concrete. The proposed Interim Action work plan outlines these tasks to isolate these locations where lead was identified above state soil cleanup level.

Send your written comments for the proposed Interim Action to Libby Goldstein, site manager, at libby.goldstein@ecy.wa.gov by August 5, 2013 for consideration. Once the public comment period ends, Ecology will review and consider all comments that have been received.

Environmental Policy Act Determination

Bremerton School District is the lead agency for the State Environmental Policy Act (SEPA) for Crownhill Elementary Site located at 1500 Rocky Point in the City of Bremerton. The SEPA checklist evaluates potential environmental impacts associated with the proposed Interim Action described above. As the lead agency for this activity, Bremerton School District has determined that the proposed Interim Action will cause no significant adverse environmental impacts. The SEPA Checklist and SEPA determination of Non-Significance (DNS) and Interim Action are available for public review at this time, and your comments are requested. Send your written comments to Ron Carpenter at 200 Bruenn Ave., Bremerton, WA 98312 by July 19, 2013 for consideration.
