Comment period: Jan. 10 – Feb. 3, 2020

We invite you to comment on the changes to the Air Operating Permit for the Nippon Dynawave pulp and paper mill in Longview.

Changes to the permit

We propose to modify the mill's air operating permit with changes that include:

- Changing the classification of a piece of equipment called the lime kiln auxiliary drive motor from an emergency engine to a non-emergency engine.
- Adding the requirements from pulp dryer Notice of Construction Order 16197 that we accepted comments on from April 3 – May 10, 2019. We finalized this order on May 16, 2019.
- Administrative changes.

A detailed list of changes is available in the modification's support document.

Air quality impacts

No new or additional pollution is allowed by the proposed changes to the permit.

Commenting

Effective comments tell us if we correctly applied current laws, rules, and regulations to this action. They:

- Are specific. Tell us what your concern is and how you think the permit should change.
- Are focused. Refer to the changes to the conditions and requirements in the permit.
- Describe the state or federal rules and regulations you think have not been applied correctly.

When the comment period ends, we'll review the comments received and make a final decision.

Facility description

Located at 3401 Industrial Way in Laongview, Wash., this mill produces liquid packaging paperboard, and wetlap and slush pulp.

Accommodation Requests: To request ADA accommodation including materials in a format for the visually impaired, contact Ecology at 360-407-7393 or visit <https://ecology.wa.gov/accessibility>.
