| Reasons for Issuing the Permit | 7 |
| Public Involvement Actions | 7 |
| List of Commenters | 9 |
| Attachment 1: Comments and Responses | |
| Appendix A. Copies of All Public Notices | |

Introduction

The Washington State Department of Ecology's Nuclear Waste Program (Ecology) manages dangerous waste within the state by writing permits to regulate its treatment, storage, and disposal. When a new permit or a significant modification to an existing permit is proposed, Ecology holds a public comment period to allow the public to review the change and provide formal feedback. (See <u>Washington Administrative Code [WAC] 173-303-830</u> for types of permit changes.)

The Response to Comments is the last step before issuing the final permit, and its purpose is to:

- Specify which provisions, if any, of a permit will become effective upon issuance of the final permit, providing reasons for those changes.
- Describe and document public involvement actions.
- List and respond to all significant comments received during the public comment period and any related public hearings.

| Comment period | LAWPS Operating Permit Modification June 28 – Aug. 12, 2021 |
|------------------------|--|
| Permit | Hanford Facility Resource Conservation and Recovery Act (RCRA) Permit for the Treatment, Storage, and Disposal of Dangerous Waste, Operating Unit Group 1, Low-Activity Waste Pretreatment System (LAWPS) |
| Permittees | U.S. Department of Energy – Office of River Protection and Washington River Protection Solutions |
| Original Issuance date | Jan. 29, 2021 |
| Effective date | Oct. 18, 2021 |

This Response to Comments is prepared for:

To see more information related to the Hanford Site and nuclear waste in Washington, please visit our webpage, <u>Hanford Cleanup</u>².

² <u>https://www.ecology.wa.gov/Hanford</u>

Reasons for Issuing the Permit

The Permit establishes requirements to ensure waste management activities are protective of human health and the environment. This Agency Initiated permit modification provided operating details for Phase One of the Low-Activity Waste Pretreatment System (LAWPS) Operating Unit Group and the necessary information to close out the Interim Compliance (IC) Schedule Item LAWPS-1. The IC Schedule Item LAWPS-1 required the permittees to submit to Ecology for review an operating permit modification request, including related AP Farm Tanks 241-AP-106, 241-AP-107 and 241-AP-108 operational requirements to support LAWPS operations.

The following were included in the permit modification to support the public comment period:

- Unit Specific Permit Conditions
- Appendix 1
- Appendix 2.6
- Addendum B, Waste Analysis Plan
- Addendum C, Process Information
- Addendum E, Security
- Addendum G, Personnel Training
- Addendum H, Closure Plan
- Addendum I, Inspection Plan
- Addendum J, Contingency Plan
- Supplemental Information

The permit modification included two versions of Addendum J, Contingency Plan. The previous Addendum J was struck out and was replaced with an entirely new document, the *Building Emergency Plan for Tank Farms*.

Public Involvement Actions

Ecology encouraged public comment on the LAWPS Operating Permit Modification during a 45day public comment period held June 28 through Aug. 12, 2021.

The following actions were taken to notify the public:

- Mailed a public notice announcing the comment period to 1,107 members of the public.
- Placed a public announcement legal classified notice in the Tri-City Herald on June 27, 2021.
- Emailed a notice announcing the start of the comment period to the Hanford-Info email list, which has 1,286 recipients.

• Posted the comment period notice on the Washington Department of Ecology – Hanford's Facebook and Twitter pages.

The Hanford information repositories located in Richland, Spokane, and Seattle, Washington, and Portland, Oregon, received the following documents for public review:

- Focus sheet
- Transmittal letter
- Fact sheet for the proposed LAWPS Operating Permit Modification
- Draft LAWPS Operating Permit Modification

The following public notices for this comment period are in <u>Appendix A</u> of this document:

- Focus sheet
- Classified notice in the Tri-City Herald
- Notices sent to the Hanford-Info email list
- Notices posted on the Washington Department of Ecology Hanford's Facebook and Twitter pages

List of Commenters

The table below lists the names of organizations or individuals who submitted a comment on the [unit name] Permit modification. The comments and responses are in <u>Attachment 1</u>.

| Commenter | Organization |
|---|--------------|
| Anonymous | Citizen |
| Confederated Tribes of the Umatilla Indian Reservation | Tribe |
| Department of Energy/Washington River Protection Solutions | Organization |

Attachment 1: Comments and Responses

Description of comments:

Ecology accepted comments from June 28 through Aug. 12, 2021. This section provides a summary of comments that we received during the public comment period and our responses, as required by RCW 34.05.325(6)(a)(iii). Comments are grouped by individual and each comment is addressed separately.

I-1: ANONYMOUS

Comment I-1-1

Operating Conditions

Page "Conditions.4" states that "Dangerous and/or mixed waste may be transferred from DWMUs within the LAWPS OUG to an on-site DWMU or an off-site permitted Treatment, Storage, or Disposal Facility ... "

This statement could be interpreted to allow treatment of pre-treated tank waste at Perma-Fix Northwest (PFNW) inside the City of Richland. PFNW has an expired permit, an out of date EIS, a poor safety record, and is only just feet above the water table, as compared to hundreds of feet in the 200 areas. Please do not allow transfer of any of the LAWPS related tank waste to PFNW, even as a "treatability test." Such tests have been used as an open ended exception to Ecology's regulations. Tank waste and its derivatives should be treated on-site, as a risk management measure and to protect the public health.

Response to I-1-1

Ecology is currently working with Perma-Fix Northwest to update and renew their RCRA permit and ensure the proper SEPA documentation is in place to ensure the safe management of mixed waste at Perma-Fix Northwest located in Richland, WA. Perma-Fix Northwest is not currently approved to receive or treat any tank waste from the Hanford tank farms.

Comment I-1-2

Orphan Waste Disposal

TPA change control form M-62-21-02 establishes milestone M-062-60, which requires a disposition pathways evaluation for the Cs-137 loaded Ion Exchange Columns to be produced by the LAWPS processes. Until a disposal pathway is found, this waste is an orphan that allows construction and operations without an entire mission definition. I would appreciate if the disposition pathway report could be accelerated, so that the costs and risks are known. An endless series of reports seems to be a waste of money.

Response to I-1-2

Thank you for your comment. Ecology agrees that a disposal pathway is of extreme importance and we continue to work with the Permittees to ensure that long-term storage, treatment, and disposal of the waste is protective of human health and the environment.

Comment I-1-3

Integrated Flow Sheet

There has been no integrated flow sheet to show the impacts of the LAWPS and DFLAW operations. Ecology accepted DOE's excuses for not actually performing TPA milestone M-062-50 work scope in favor of work to be done "later," which is a quality assurance violation. How much more waste is produced over what was baseline WTP operations? More liquid added, more and different air emissions? More sodium hydroxide added to make even more glass? I

would appreciate if Ecology could obtain and publish the Integrated Flowsheets that DOE has sponsored and published so far, and any new ones that completed. These reports are:

RPP-RPT-57991, One System: Tank Waste Disposition Integrated Flowsheet - River Protection Project Reference Integrated Flowsheet Rev 0, 2014;

RPP-RPT-57991 "One System River Protection Project Integrated Flowsheet;" Rev 1, 2015; RPP-RPT-57991 One System River Protection Project Integrated Flowsheet;" Rev 2, 2017;and

RPP-RPT-57991 "River Protection Project Integrated Flowsheet;" Rev 3, 2019. This will help to answer questions about how the LA WPS process is affecting overall risks and costs.

Response to I-1-3

In response to your comment, here are some specific details: Spent ion exchange resin is generated in the LAWPS (TSCR) process. Unlike the spent ion exchange resin generated in the original WTP pretreatment process, the LAWPS spent ion exchange resin is a single use resin which remains loaded with contaminants, including radioactive cesium, after use. The LAWPS spent ion exchange resin is managed as a new waste stream that DOE plans to incorporate into the waste stream fed to the WTP HLW vitrification process. The LAWPS (TSCR) process requires a more dilute waste stream. In the DFLAW Configuration the LAW melters will be run at feed rates lower than the Baseline Configuration, since more of the heat input to the LAW melters will be used to evaporate water rather than melt glass former materials and waste. Consequently, the air emissions are expected to be the same or lower during the DFLAW operations. Additional sodium hydroxide and other corrosion inhibiting chemicals will be added to the waste stream as needed with dilution water to produce a more dilute waste; however, the amount added will be relatively small since it is being added for corrosion inhibition as the waste is diluted. All revisions of RPP-RPT-57991 (0, 1, 2, and 3) are available to the public and can be found at:

https://www.hanford.gov/page.cfm/FOIA/FOIRequestsReceivedbyRLandORPin2021

B-1: CTUIR

Comment B-1-1

Addendum B, "Waste Analysis Plan" Pg 11:

Lines 16-18 of the proposed modification read: "<u>Blending could include removing a portion of</u> <u>the feed and replacement with selected alternative feed. This blending approach could include</u> <u>the addition of water as a part of the remedy.</u>"</u>

Comment: It is a concern that this language will potentially allow dilution of the waste stream with water to meet waste feed acceptance criteria for Low Activity Waste, where the waste will then be concentrated to hazardous levels later in the vitrification processes.

Requested Action: Please change wording to: "<u>Blending could include removing a portion of</u> <u>the feed and replacement with selected alternative feed. This blending approach could include</u> <u>the addition of water as a part of the remedy for meeting TSCR waste feed viscosity and density</u> <u>requirements.</u>"

Response to B-1-1

Ecololgy accepts the proposed language to Addendum B and will revise the sentence as suggested.

T-1: WRPS/DOE (PERMITTEES)

Comment T-1-1

Compliance Schedule Item LAWPS-2 in Appendix 1.0 has been completed. Tri-Party Agreement (TPA) change notice M-62-21-02 was approved by both Ecology and DOE on 6/8/2021 to establish a series of TPA milestones for long-term management of the spent ion exchange columns and media. We recommend that Appendix 1.0 be further revised to reflect item LAWPS-2 as "complete" similar to what is proposed for item LAWPS-01.

Response to T-1-1

Ecology agrees, Tri-Party Agreement (TPA) change notice M-62-21-02 was approved by both Ecology and DOE on 6/8/2021 to create four new interim milestones and two new target dates for the long-term management of the spent ion exchange columns and associated media. Appendix 1 will be revised to reflect Interim Compliance Item LAWPS-2 as "complete".

Appendix A. Copies of All Public Notices

Public notices for this comment period:

- Focus sheet
- Classified notice in the Tri-City Herald
- Notices sent to the Hanford-Info email list
- Notices posted on Washington Department of Ecology Hanford's Facebook and Twitter pages

LAWPS Operating Permit Modification

- Public comment period June 28 Aug. 12, 2021
- Agency Initiated permit modification
- Provides operating details
- Closes Interim Compliance (IC) schedule item LAWPS-1

Public comment invited

The Washington State Department of Ecology (Ecology) is proposing a change to the Hanford Facility Resource Conservation and Recovery Act Permit, Revision 8C.

This change affects the Dangerous Waste Portion for the Treatment, Storage, and Disposal of Dangerous Waste for the Low-Activity Waste Pretreatment System (LAWPS) Operating Unit Group (OUG) 1.

This Agency Initiated permit modification provides operating details for Phase One of the LAWPS OUG and IC Schedule Item LAWPS-1.

The Permittees are:

U.S. Department of Energy Office of River Protection P.O. Box 450 Richland, WA 99352

Washington River Protection Solutions P.O. Box 850 Richland, WA 99352

The LAWPS OUG will remove cesium and filter solids from tank supernatant waste for subsequent transfer to the Waste Treatment and Immobilization Plant (WTP) Low-Activity Waste (LAW) Facility for vitrification. The IC Schedule Item LAWPS-1 requires the Permittees to submit to Ecology for review an operating permit modification request, including related AP Farm Tanks 241-AP-106, 241-AP-107 and 241-AP-108 operational requirements to support LAWPS operations.

Background

The Hanford Site occupies 580 square miles in southeastern Washington State. Beginning in 1943, the site produced plutonium for the nation's defense program. Plutonium production ceased in the late 1980s. Today, waste management and environmental cleanup are the primary missions at Hanford.

The LAWPS Operating Unit Group will be located in the 200 East Area of the Hanford Site and will be operated in phases with Phase One as a Tank Side Cesium Removal (TSCR) unit.

Overview of changes

The following documents are included in the permit modification to support the public comment period:

- Unit Specific Permit Conditions
- Appendix 1
- Appendix 2.6
- Addendum B, Waste Analysis Plan
- Addendum C, Process Information
- Addendum E, Security
- Addendum G, Personnel Training
- Addendum H, Closure Plan
- Addendum I, Inspection Plan
- Addendum J, Contingency Plan
- Supplemental Information

The permit modification includes two versions of Addendum J, Contingency Plan. The current Addendum J has been struck out and will be replaced with an entirely new document, both documents are included in support of the public comment period.

Why this permit change matters

The Permit establishes requirements to ensure waste management activities are protective of

human health and the environment. This permit change provides operating and maintenance details for the LAWPS OUG and the necessary information to closes out the IC Schedule Item LAWPS-1.

Figure 1 Process, Ancillary, and Control Enclosures on the Balance of Facilities pad- photo courtesy USDOE

Reviewing the proposed changes

Ecology invites to you to review and comment on this proposed LAWPS operating permit modification. See the last page for comment period dates and information on how to submit comments.

Copies of the application for the proposed permit and supporting documentation will be available during the public comment period online at <u>Ecology's website</u>¹. The documents will also be available at the Hanford Public Information Repositories listed on the next page.

Ecology will consider and respond to all significant comments received during the public comment period. We will document our responses and issue a response to comments document when we make our final permitting decision.

Jun 27 2021

CITY OF WEST RICHLAND PARADISE WAY EXTENSION PHASE 4 PROJECT BENTON COUNTY, WASHINGTON INVITATION TO BID

The City of West Richland will receive sealed bids for the **PARADISE WAY EXTENSION PHASE 4 PROJECT** at the Municipal Services Facility, 3100 Belmont Blvd, West Richland, Washington, 99353 until **Tuesday, July 13,** 2021 at 11:00 a.m.

The project will construct water main and hydrants, underground storm, con-crete curb and sidewalks, roadway surfacing and paving, street lighting, and related work in accordance with the technical specifications, drawings and contract documents

To comply with the Governor's current Stay Home - Stay Healthy Proclamation 20-25, the City has made changes to the bid submittal and bid opening process for the above referenced bid

The City will accept the following for bid submits for the "PARADISE WAY EXTEN-SION PHASE 4 PROJECT"

Accept hand-delivered bids at the Municipal Services Facility: 1.

a. All paper bids shall be deposited in the Utility Payment Drop Box located at the east entrance of the parking lot of the Municipal Services Facility located at all old of many location of the second sec

July 13 2021. No late bids will be accepted

c. Bid envelope shall be no larger than 6" x 9". Please include only the required items listed in the "Bidders Checklist" on page 14 of the Contract Documents.
d. Clearly label the envelope to include "Bid for PARADISE WAY EXTENSION PHASE 4 PROJECT"

2. Postal Service or Courier - BIDS MUST BE RE OPENING DEADLINE. NO late bids will be accepted. BIDS MUST BE RECEIVED PRIOR TO THE BID

- Submit bids via US mail, UPS, Federal Express or mail courier to: City of West Richland
 - Attn: Ilka Gilliam
 - 3100 Belmont Blvd., Suite 102 West Richland, WA 99353

Clearly label the envelope to include "Bid for PARADISE WAY EXTEN-SION PHASE 4 PROJECT

3. Submittals delivered by fax, telephone or email will **not** be accepted

Additionally, Public Bid Opening will be held using Zoom meeting. Bidders will be need to attend the bid opening by either by calling in to hear the opening of by accessing Zoom Meeting to view the opening (see instruction below).

ATTENTION CONSULTANTS REQUEST FOR QUALIFICATIONS (RFQ) ENGINEERING SERVICES FOR INTERCHANGE IMPROVEMENTS AT INTERSTATE 182/ROAD 100

The City of Pasco, Washington, (City) Department of Community & Economic De-velopment is soliciting a Statements of Qualifications (SOQ) from qualified Consultants registered in the State of Washington to provide Engineering Services for an Interchange Analysis, Access Revision Report (ARR), and Interchange Im-provement Design, based upon available funding, in accordance with the terms, conditions and specifications contained within the Request for Qualifications (RFQ).

The complete RFQ may be obtained via the City website - http://www.pasco-wa gov/Bids.aspx at **10:00 am Monday, June 21st, 2021**. It is the sole re-sponsibility of the Consultant to obtain any RFQ updates or addenda from the City website

For consideration, Consultants are required to submit either an electronic hard copy of their SOQ up to the hour of **2:00 pm, Tuesday, July 13th, 2021.** Hard copy responses shall be addressed to the City of Pasco – Com-munity & Economic Development Department and will be received at the office of the City Clerk, City Hall, 525 North 3rd Avenue, Pasco, Washington. Electronic responses shall be transmitted to cityclerk@pasco-wa.gov with a maximum size of 20mb.

Technical questions regarding the scope of this project should be put in writing and directed to Dan Ford, City Engineer, City of Pasco, Public Works, 525 N. 3rd

Avenue, PO Box 293, Pasco, WA 99301; email: ford@pasco-wa.gov. The City of Pasco, in accordance with Title VI of the Civil Rights Act of 1964, 78 Stat. 252, 42 U.S.C. 2000d to 2000d-4 and Title 49, Code of Federal Regulations, Department of Transportation, Subtitle A, Office of the Secretary, Part 21, Nondis-crimination in Federally-assisted programs of the Department of Transportation issued pursuant to such Act, hereby notifies all bidders that it will affirmatively ensure that in any contract entered into pursuant to this advertisement, disad-vantaged business enterprises as defined at 49 CFR Part 26 will be afforded full opportunity to submit bids in response to this invitation and will not be discriminated against on the ground of race, color, national origin, or sex in consider

ation for an award. Projects funded wholly or in part by Federal appropriations must comply with Code of Federal Regulations; 24 CFR 570.502, 24 CFR 85.36, 2 CFR 200. All federally-funded projects will be held to federal Equal Employment Opportunity (EEO) requirements. The City of Pasco is an equal opportunity and affirmative action employer. Small, minority, and women-owned businesses are encour-aged to submit bids. The City of Pasco in accordance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act (ADA), commits to non-discrimination on the basis of disability, in all of its programs and activities. This material can be made available in an alternate format by e-mailing Samantha McCanse at mccanses@pasco-wa.gov or calling (509) 545-3419. Those submitting Firms determined to be best qualified to undertake the ser-

vices required under this Request for Qualifications (RFQ) may be invited to make a presentation to the City's interview team.

The City reserves the right to reject any and all responses and to waive technicalities or irregularities, and after careful consideration of all submissions and factors involved make the award to best serve the interests of the City of Pasco. DATED: June 18, 2021 Publish: June 20, 2021

LAWPS Operating permit modi-fication public comment period notification

The Washington State Department of Ecology is providing notification of a 45-day public comment period start-ing June 28 – Aug. 12, 2021. This comment period will address proposed modifications to the Danger ous Waste Portion for the Treatment Storage, and Disposal of Dangerous Waste for the Low-Activity Waste Pretreatment System (LAWPS) Operating Unit Group (OUG) 1. The Permittee(s) are the U.S. Department of Energy and Washington River Protection Solu-tions. LAWPS will be located on the Hanford Site in southeastern Wash-ington. This Agency Initiated permit modification provides operating details for Phase One of the LAWPS OUG and closes Interim Compliance Schedule Item LAWPS-1

What changes are being pro-posed? The following documents are included

Addendum C, Process Infor-

Addendum G, Personnel Train-

ing Addendum H, Closure Plan

Addendum I. Inspection Plan

CITY OF RICHLAND NOTICE OF APPLICATION & PUBLIC HEARING

Notice is hereby given that Nor Am Investments, LLC has filed an application for preliminary plat approval to subdivide a 194.54 acre site into 477 lots referred to as the Preliminary Plat of South Orchard. The project site is located along the north side of Reata Road, west of Morningside Parkway in the Badger Mountain South master planned community (APN 1-04882000001000). The plat proposes an average lot size of 9,143 square feet.

The Richland Hearing Examiner will conduct a virtual public hearing and review of the application on **Monday**, **July 12, 2021 at 6:00 p.m.** All interested parties are invited to participate in the virtual public hearing by visiting the City of Richland website at www.ci.richland.wa.us.

Environmental Review: The proposal is not subject to specific environmental review. Environmental impacts of Badger Mountain South, a master planned community, have previously been analyzed. The final environmental impact statement and related file information are available to the public and can be viewed at www. ci.richland.wa.us.

Any person desiring to express their views or to be notified of any decisions pertaining to this application should notify Shane O'Neill, Senior Planner, 625 Swift Boulevard, MS-35, Richland, WA 99352. Comments may also be faxed to (509) 942-7764 or emailed to soneill@ci.richland.wa.us. The deadline to submit written com-ments is 6:00 p.m. on Sunday, July 11. However, written comments must be received no later than 5:00 p.m. on Friday, July 2, 2021 to be incorpo-rated into the staff report. Comments received after that time will be entered into the record during the hearing.

The application will be reviewed in ac-Cordance with the regulations in RMC Title 19 Development Regulations Administration, Title 24 Plats and Subdivisions, the Badger Mountain South Land Use & Development Regulations, and the Badger Mountain South Mas-ter Agreement. Appeal procedures of decisions related to the above referenced application are set forth in RMC Chapter 19.70. Contact the Richland Planning Division at the above refer-enced address with questions related to the available appeal proce Published: Sunday, June 27, 2021 IPL0029546 Jun 27 2021

State Waste Discharge Permit ST0004502 permit renewal public comment period notifi cation

The Washington State Department of Ecology (Ecology) is providing notification of a 30-day public comment period starting June 28 – July 28, 2021. We are inviting the public to comment on the draft permit and fact sheet supporting the renewal of State Waste Discharge Permit ST0004502 for the 200 Area Treated Effluent Disposal Facility (200 Area TEDF). The Permittee is the U.S. Department of Energy. The 200 Area TEDF is located on the Hanford Site in southeastern Washington.

Renewal overviewThe Permittee applied to renew the State Waste Discharge Permit for the 200 Area TEDF. We reviewed this application and drafted the permit in accordance with the provisions of Chapter 90.48 Revised Code of Washington and Chapter 173-216 Washington Administrative Code

After developing the draft permit, we made a tentative determination on the special permit conditions that will prevent and control pollution of the groundwater. However, we will not make a final determination until we evaluate all comments received during this public comment period.

How to commentEcology invites you to review and comment on this proposed permit renewal. The proposed modification is online at the Nuclear Waste Program's public comment period page at https://ecology. wa.gov/Waste-Toxics/Nuclear-waste/ Public-comment-periods. Copies of the proposed modification are located on the Administrative Record at https://pdw.hanford.gov/ and at Infor-mation Repositories listed on the public comment page listed above. Please submit comments by July 28, 2021. Electronic submission (preferred): https://nw.ecology.commentinput. com/?id=cHb7e
