Rule Proposal Notice

RCW 90.48.465 requires Ecology to establish, by rule, annual fees to recover the cost of administering the wastewater and stormwater permit programs. Chapter 173-224 WAC – Water Quality Permit Fees was adopted in response to this law. At this time, Ecology is considering a rule amendment to increase fees for Fiscal Years 2022 and 2023 to recover the projected program costs and move closer to payment equity between fee categories. Ecology may also propose new permit fee categories, changes to the structure of specific permit fee categories, and technical changes.
