Introduction

The purpose of the program is to provide relatively quick access to no interest loans for small communities that experience water quality-related “environmental emergencies” as defined in WAC 173-98-030(27). The definition states, “Environmental emergency means a problem that a public body and the department agree poses a serious, immediate threat to the environment or to the health or safety of a community and requires immediate corrective action.”

The program seeks to simplify and expedite the application, agreement development, and project implementation processes in order to disburse funds to eligible projects soon as possible.

Ecology collaborated on program development to be as consistent as possible with the Washington State Department of Health’s (DOH) Drinking Water State Revolving Fund Emergency Loan Program.

Program Overview

Funding Source

The CWSRF Emergency Funding Program is funded from an annual set-aside from the CWSRF. The set-aside is described in the annual Water Quality Final Funding Offer List and Intended Use Plan submitted to the federal Environmental Protection Agency (EPA).

Funds awarded through the program are reported to EPA in Ecology’s Annual Report–Washington’s Clean Water State Revolving Fund (CWSRF).

Funding Limits

The annual maximum total limit of awarded funding under the program is $5,000,000. The number of projects awarded funding per jurisdiction is unlimited, but the maximum annual funding limit per jurisdiction is $500,000.

Loan Terms and Interest Rates

All loans awarded through the CWSRF Emergency Funding Program are for a term of 10 years or the life of the funded project, whichever is shorter. The project life is evaluated based on the information available, including information provided by the applicant.

The interest rate for all loans awarded through the program is 0 percent (0.00%). In accordance with WAC 173-98-400(7)(c), the standard CWSRF administration fee does not apply.

Forgivable loans and grants are not available.

**Eligible Applicants**

CWSRF Emergency Funding Program funding is only available to public bodies serving a population of 10,000 or less. Eligible public bodies include:

- Conservation districts.
- Counties, cities, and towns.
- Federally recognized tribes.
- Irrigation districts.
- Local health jurisdictions.
- Port districts.
- Quasi-municipal corporations.
- Washington State institutions of higher education if the project is not included in the institution’s statutory responsibilities.
- Water and sewer districts.

**Eligible Projects**

Any water quality-related project considered to be an environmental emergency that meets the WAC 173-98-030(27) definition and has received a Declaration of Emergency from the local government is eligible for funding.

Eligible projects may result from a natural disaster or an immediate and emergent threat to public health due to water quality issues resulting from unforeseen or unavoidable circumstances.

Table 1 provides a basic list of eligible and ineligible projects and project components, listed alphabetically.

</table>

**Application Process**

**Ecology Administration of Grants and Loans System**

Applicants apply for funding through the Ecology Administration of Grants and Loans (EAGL) system. All funding agreements are managed through EAGL as well.

The funding application is open year-round. Applicants request an application by contacting Daniel Thompson at 360-407-6510 or daniel.thompson@ecy.wa.gov. See Appendix B for an applicant prep tool that shows all the questions applicants will see and be required to answer on the application.

**Declaration of Emergency**

Applicants must declare a local emergency and upload a copy of the Declaration of Emergency during the application process. Declaration of a local emergency allows recipients to waive the competitive bidding requirement for public works projects. Waiving the competitive bidding requirement has the potential to shorten the amount of time for projects. See Appendix A for an example Declaration of Emergency.

**Application Review**

Ecology reviews all applications to ensure projects meet the CWSRF Emergency Funding Program eligibility requirements.

Applications are not rated or ranked.

Funding is on a first-come, first-served basis.

---

6 https://ecology.wa.gov/About-us/How-we-operate/Grants-loans
Key Funding Conditions

All applicable CWSRF conditions apply to funded projects, although some modifications are made to expedite the process for some approvals. This section lists several of the key conditions that apply.

In addition to the items discussed in this section, additional information on key funding conditions can be found on Ecology’s General Resources for Water Quality Grants and Loans webpage.

Before Signing a Funding Agreement

Authorizing Ordinance or Resolution

Recipients must provide an authorizing ordinance or resolution that states that the recipient accepts responsibility to repay the loan and abide by the provisions of the agreement. The governing board or council must sign the resolution.

Cost and Effectiveness Analysis

A Cost and Effectiveness Analysis (CEA) is required for all funded projects. The minimum requirements of a CEA are:

- A study and evaluation of the cost and effectiveness of the processes, materials, techniques, and technologies for carrying out the project or activity.

- The selection, to the maximum extent practicable, of a project or activity that maximizes the potential for efficient water use, reuse, recapture, and conservation, and energy conservation. The selection must take into account:
  - The cost of constructing the project or activity.
  - The cost of operating and maintaining the project or activity over the life of the project or activity.
  - The cost of replacing the project or activity.

Recipients must complete the CEA and provide a certification of completion within EAGL prior to loan signing.

Environmental and Cultural Resources Requirements

Local, state and federal emergencies are often exempt from a number of regulations. This is because incident responders must focus their time on responding immediately to the disaster at hand.

---

7 https://ecology.wa.gov/About-us/How-we-operate/Grants-loans/Find-a-grant-or-loan/Water-Quality-grants-and-loans/General-resources
Fulfilling Executive Order 21-02 Cultural Resource Obligations

Applicants will submit an Ecology Cultural Resources Review Form to the Ecology Grant Manager, and upload an Inadvertent Discovery Plan to EAGL. The review and comment period associated with the project is dependent upon the nature and severity of the emergency, but can be expedited.

Ecology worked with the Department of Archaeology and Historic Preservation (DAHP) on this emergency expedited process for informing DAHP and area-affected tribes of a local emergency or larger disaster. Any information received back from DAHP or the tribes on sensitive locations will be coordinated back to Ecology. Ecology, DAHP, and the tribal governments will work with the local community as partners in times of an emergency. Figure 1 summarizes the possible expedited cultural resources review process.

Figure 1: Expedited Cultural Resources Review Process for Local Emergencies

Environmental Assessment Options and the State Environmental Review Process (SERP)

To ensure short-term (temporary) repairs and long-term permanent emergency impacts are considered, Ecology requires one of the following two items during initial application phase:

- A State Environmental Policy Act (SEPA) threshold determination covering the emergency action funded by the CWSRF loan. If the local government has a SEPA exemption for the temporary repairs associated with the emergency action Ecology will consider the exemption.
• A National Environmental Policy Act (NEPA) or Tribal Environmental Policy Act (TEPA) environmental review covering the action.

Following the approval of the design for repairs, Ecology requires an after-action report associated with long-term repairs, or a post-incident report and/or natural resource damage assessment, which should completely address the damage to the infrastructure and any impacts to surrounding environmental/natural resources. Figure 2 summarizes the possible expedited environmental review process.

![Figure 2: Expedited Environmental Review Process for Local Emergencies](image)

By providing these documents, Ecology will consider the loan recipient in compliance with all SERP obligations.

**Financial Capability Assessment**

Ecology must conduct a financial capability assessment (FCA) of all recipients of CWSRF loans. Ecology cannot sign loan agreements without a FCA. Among other things, the FCA is used to assess the ability of applicants to repay the CWSRF loan.

Part of the FCA process involves determining an applicant’s means of securing the loan. Loan security options include the following.

• Revenue-secured where an obligation is secured by a pledge of the revenue of a utility—for example, when a recipient charges a fee for a utility service such as wastewater fees.

• General Obligation where an obligation is secured by annual taxes levied--for example,
when a recipient uses its General Fund.

- General Obligation from Special Assessment where an obligation is secured by special assessments levied—for example, when a recipient has a ULID or when there is a specific assessment based on home value.

- Tribal Government Enterprise where an obligation is secured through a tribal source—for example, when a recipient uses a tribal enterprise fund.

**Fiscal Sustainability Plan (a.k.a., Asset Management Plan)**

Recipients of funding for wastewater and stormwater projects with a construction component must certify that they have prepared a Fiscal Sustainability Plan (FSP) or another plan(s) that contains at least the following:

- An inventory of critical assets that are part of the system.
- An evaluation of the condition and performance of the critical assets.
- A plan to maintain, repair, and replace the critical assets and to fund those activities.
- A process to evaluate and implement water and energy conservation efforts as part of the plan.

Recipients must complete a certification in EAGL during the agreement negotiation process. Ecology requires recipients who do not already have a plan that meets the minimum requirements to prepare one as part of the scope of work for the project and submit a new certification statement upon completion of the plan.

**Growth Management Act**

Jurisdictions required or choosing to fully plan under RCW 36.70A.040 of the Growth Management Act (GMA) proposing a facility project must be in compliance with the applicable GMA requirements at the time a loan agreement is signed unless exceptional situations exist. Ecology may make exceptions in situations involving a public health need or a significant environmental degradation; see WAC 173-98-710.

**Initial Data Reporting**

Recipients must complete the “CWSRF Federal Reporting Information” form in EAGL. The form will be available for completing in EAGL during the agreement development process.

---

Opinion of Recipient’s Legal Counsel

Recipients must provide a statement from their legal counsel regarding the final draft of the loan agreement. The statement will be included in the loan agreement. A statement template is located on Ecology’s Facility Project Resources webpage\textsuperscript{10}.

During Project Implementation

Accounting Standards

Recipients must maintain accurate records and accounts for the project in accordance with Generally Accepted Accounting Principles (GAAP) as issued by the Governmental Accounting Standards Board (GASB), including standards related to the reporting of infrastructure assets, or in accordance with the state standards in Chapter 43.09.200 RCW\textsuperscript{11}.

American Iron and Steel

Funded projects for the construction, alteration, maintenance, or repair of facilities must meet the American Iron and Steel (AIS) requirements. Such projects may use only specific iron and steel products that are produced in the United States. The requirements do not apply to activity projects.

For additional guidance visit EPA’s AIS webpage\textsuperscript{12}.

Davis-Bacon Act Wages

Recipients of funding for treatment works projects involving construction must comply with the federal Davis-Bacon Act\textsuperscript{13} wage requirements.

Disadvantaged Business Enterprise

Recipients must comply with the federal Disadvantaged Business Enterprise (DBE) standards. Ecology requires all recipients to report on meeting the DBE standards, and Ecology reports the results to EPA annually.

Investment Grade Efficiency Audit

Recipients are required to conduct an investment grade efficiency audit (IGEA). The IGEA can be just for the funded project or the entire system; the latter is preferable. In addition, if an IGEA was conducted for the entire system within the past 5 years, recipients need only upload a copy of the previously-completed IGEA to EAGL—no additional work is required. The IGEA may be paid for with loan funds.

\textsuperscript{10} https://ecology.wa.gov/About-us/How-we-operate/Grants-loans/Find-a-grant-or-loan/Water-Quality-grants-and-loans/Facility-project-resources

\textsuperscript{12} https://www.epa.gov/cwsrf/state-revolving-fund-american-iron-and-steel-ais-requirement
\textsuperscript{13} https://www.dol.gov/whd/govcontracts/dbra.htm
Reporting

Recipients must provide routine updates on projects while the funding agreement is in active status. Quarterly reports cover January 1-March 31, April 1-June 30, July 1-September 30, and October 1-December 31. Reports submitted within EAGL are due within 30 days of the end of the quarter.

In addition to quarterly reports, recipients are required to submit an EAGL closeout form and a separate 2-page project summary report as part of the closeout process. Recipients should contact the Ecology Project Manager for templates and guidance.

Suspension and Debarment

All funded projects must comply with the federal suspension and debarment requirements. Ecology’s Project Management Team confirms compliance before processing payment requests.

At the end of the project

Project Completion

All projects awarded funding must be complete within 2 years of signing a funding agreement.

Repayments

Semi-annual loan repayment begins one year after the project completion date or initiation of operation date, whichever comes first.

There is no restriction or penalty for early loan repayment.

Any funding awarded but not used for the project will be de-obligated at loan closeout without any cost to the recipient.

Contacts

For questions about the CWSRF Emergency Funding Program, please contact:

- Daniel Thompson at (360) 407-6510 or daniel.thompson@ecy.wa.gov.

For questions about environmental and cultural resources review please contact:

- Liz Ellis at (360) 407-6429 (office), (360) 628-4420 (cell), or liz.ellis@ecy.wa.gov.
Appendix A: Example Declaration of Emergency

RESOLUTION NO. ______
CITY NAME, WASHINGTON

A RESOLUTION OF THE CITY COUNCIL OF THE CITY NAME, COUNTY NAME, WASHINGTON DECLARING AN EMERGENCY AND WAIVING THE COMPETITIVE BIDDING REQUIREMENTS FOR A PUBLIC WORKS PROJECT.

WHEREAS, RCW 39.04.280(1)(e) provides that the governing body of a municipality may waive the competitive bidding requirement for a public works project in the event of an emergency; and

WHEREAS, RCW 39.04.280(3) defines "emergency" as unforeseen circumstances beyond the control of the municipality that either: (a) Present a real, immediate threat to the proper performance of essential functions; or (b) will likely result in material loss or damage to property, bodily injury, or loss of life if immediate action is not taken; and

WHEREAS, in MONTH, 20XX the CITY NAME discovered that STATE THE PROBLEM, WHEREAS, STATE EMERGENCY; and

WHEREAS, the City Council has determined that due to the timing, location, critical function, and need for immediate repair or construction of IDENTIFY INFRASTRUCTURE THAT IS DAMAGED, insufficient time may not exist to complete the construction project through the standard competitive bidding process and must therefore declare the situation as an emergency; and

WHEREAS, the City Council has therefore determined that an emergency situation exists and desires to perform the necessary construction of IDENTIFY INFRASTRUCTURE THAT IS DAMAGED by directing the Mayor and City Administrator to waive the competitive bidding process and award all necessary contracts on behalf of the municipality to address the emergency situation;

NOW THEREFORE BE IT RESOLVED that the City Council of the City of CITY NAME hereby declares that an emergency situation exists with the damage to IDENTIFY INFRASTRUCTURE THAT IS DAMAGED and authorizes the Mayor and City Administrator to waive the competitive bidding process and award all necessary contracts on behalf of the municipality to undertake construction.

Introduced, passed and approved this _____ day of MONTH, 20XX.

Appendix B: Applicant Prep Tool

The purpose of this document is to help applicants organize their answers to the questions for the funding application (WQSRFEFP-2022). This is not an application. It may be used in preparation of on-line submittal through Ecology’s Administration of Grants and Loans (EAGL\textsuperscript{14}). Items marked with an * are required. Language in parentheses and in this color are for informational purposes.

This document is also available in all funding applications.

**General Tips**

1) When pasting text into EAGL, it will strip any formatting. It’s best to prepare plain text without bullets.

2) Once you have completed your text, save as “Plain Text” and review before cutting and pasting into EAGL.

3) Character limits are indicated below. You can highlight your draft text, select “Review” and “Word Count” to see the number of characters with spaces to ensure you are meeting EAGL size restrictions.

4) You should thoroughly review your application well before you plan to submit it to Ecology for review. EAGL’s global error check can help with this process. To re-check your entire document for errors, click the CHECK FOR ERRORS link. This will start a global error check. If any errors are found on your forms, the form name and error message will display on the page. You can click on any of the underlined form names to return to that form. Another option is to check each individual form as you complete it by clicking CHECK GLOBAL ERRORS near the top right of the screen.

**General Information Form**

*Project Title* (enter a short title for your project; limited to 75 characters)

*Project Short Description* (enter a short description of your project; limited to 500 characters)

*Project Long Description* (enter a long description of your project; limited to 4000 characters)

*Total Cost* (enter the full cost of the project, including ineligible portions and portions paid with other funds)

*Total Eligible Cost* (enter the funding desired from Ecology; it cannot exceed $500,000)

*Effective Date* (enter the earliest date on which eligible costs will be incurred)

*Expiration Date* (enter the last date on which eligible costs will be incurred)

*Project Category* (select only one)

\textsuperscript{14} https://ecology.wa.gov/About-us/How-we-operate/Grants-loans
☐ Nonpoint Source Activity
☐ Onsite Sewage System
☐ Stormwater Activity
☐ Stormwater Facility
☐ Wastewater Facility

Will Environmental Monitoring Data be collected? (choose Yes or No from the dropdown list if desired)

*Overall Goal (enter the main goal of your project; limited to 1000 characters)

**Project Characterization Form**

*Primary Theme: (choose a primary theme from the dropdown list; secondary themes will appear after you hit Save)

*Secondary Theme(s): (choose a secondary theme from the dropdown list; hit Save, and choose more secondary themes if needed)

Project Website Address: (enter if desired)

**Recipient Contacts Form**

*Project Manager: (choose from the dropdown list)

*Authorized Signatory: (choose from the dropdown list)

*Billing Contact: (choose from the dropdown list)

Other recipient signatures required on printed agreement: (if someone other than the Authorized Signatory must sign the funding agreement, provide their Name and Title)

**Mapping Information Form**

*Follow instructions on form. Detailed instructions are available in EAGL. Applicants are required to provide a location for the project, draw a boundary, or upload a shapefile. Important note: After you have defined the project area or edited the map, select Save to be returned to the Mapping Information form, then be sure to check in the map by selecting Save at the top of the form; this will make it available to Ecology and your team.

**Emergency Project Information Form**

*Describe the emergency that this project will address. Include the name(s) of the specific water body(ies) affected.

---

*What event created this emergency? (limited to 200 characters)

*Upload a copy of the Declaration of Emergency from the local government.

**Funding Request Form**

Total Eligible Cost *(this is auto-filled)*

Requested Loan *(this is auto-filled)*

Loan Term (Years) *(this is auto-filled)*

*Do you have any secured funds committed to this project? *(if yes, must complete at least 1 row and all cells in the row in the table)*

<td></td>
</tr>
</tbody>
</table>

**Budget and Schedule Form**

*Upload a detailed budget for the project and any supporting documentation, including engineers’ estimates, cost analysis, etc.*

*Upload a project schedule that includes all tasks necessary to complete the project, including tasks that are not part of the funding request.*

**Environmental and Cultural Resources Documentation Form**

The purpose of this form is for you to note which documents you have provided your grant or loan manager and/or environmental/cultural resource reviewer for all Water Quality Combined Funding Program projects, regardless of funding source or project category. It is not a location for sensitive documentation such as cultural resource reports. Those will be removed if you upload them.
Once you have provided the following documents, check them off and upload any non-sensitive documents.

- Cultural Review Final Determination; Date of Final Determination
- DAHP Letter of Concurrence
- Completed activity/location specific Inadvertent Discovery Plan (IDP). An IDP is not associated with consultation and is required in the event of a discovery during ground disturbance.

If you are applying for or have received a loan from the CWSRF, when applicable upload the following documents provided to support completion of environmental requirements.

- NEPA Environmental Assessment or Impact Statement
- SEPA checklist
- SEPA Threshold Determination
- SEPA Environmental Impact Statement
- Affidavit of Publication of SEPA Threshold Determination
- Public Engagement and Outreach documentation, including Environmental Justice information
- SERP Information Packet Coversheet
- SERP request for NEPA Categorical Exclusion
- SERP SEPA Finding of Categorical Exemption
- SERP Determination
- Other supporting environmental documentation as requested by Ecology

If you have a stormwater facility project, and you are applying for or have received state funding via SFAP and no federal funds under CWSRF, when applicable upload the following documents.

- SEPA checklist
- SEPA Threshold Determination
- Affidavit of Publication of SEPA Threshold Determination

Upload Documents. Any documents marked sensitive or do not disclose will be removed from EAGL by Technical Reviewers. If you received such a document, such as a cultural resource survey or monitoring report, send it directly to your Project Manager or Cultural Resource Contact.

Uploads Form

(This form is available in all applications. It allows you to upload any documents associated with the application and funding agreement.)
