# Office of Columbia River Funding 2023-25 Biennium Guidelines

Established in 2006 under Chapter 90.90 RCW, the Columbia River Water Management Program seeks to meet current and future water needs along the Columbia River and its tributaries. The Office of Columbia River (OCR) is charged with "aggressively pursuing" water solutions that concurrently meet water needs for families, industry, farms, ecosystems and fish. OCR works to resolve conflicts over water and provide water security in the face of drought and changing climate.

The Office of Columbia River is tasked with six directives:

- Find sources of water for pending water-right applications.
- Develop water sources for new municipal, domestic, industrial, and irrigation needs.
- Issue water supply and demand reports.
- Secure alternatives to groundwater for agricultural users in the Odessa Subarea.
- Find a new uninterrupted supply of water for those whose rights are curtailed on the Columbia mainstem when minimum flows are forecast to be unmet.
- Make water available for instream benefits when needed most.

Funding opportunities are undertaken pursuant to the provisions of the Chapter 90.90 RCW. To respond to the legislative directive, OCR, in coordination with stakeholders, develops and pursues implementation of a suite of water supply development projects that are vetted with the Columbia River Policy Advisory Group, a broad-based stakeholder group. Funding opportunities are available to federal, state, local, and tribal government entities and quasi-government entities (i.e., irrigation districts, and conservation districts).

Funded projects are governed by the agreement General Terms and Conditions, any Agreement Specific Terms and Conditions, and "Administrative Requirements for Ecology's Grants and Loans" (current edition). The following sections highlight some, but not all, requirements from these documents.

The following are some general guidelines to help clarify Ecology's requirements for grants and loans:

**Become familiar with your General Terms and Conditions.** The current edition can be found in APPENDIX A. These are subject to change and may be updated prior to your agreement being finalized. By entering into the agreement, you, the Recipient, agree to the terms and conditions without negotiation.

The general terms and conditions provide information on items such as:

### **1. Payment Requests/Progress Reports (PRPR) – Section 20**

Progress reports are required quarterly even if no payment request is being made as a result of no billed expenses.

[How to submit a Payment Request/Progress Report video in EAGL -YouTube](#)<sup>2</sup>

This agreement is governed by the [Administrative Requirements for Recipients of Ecology Grants and Loans \(Yellow Book\)-current version](#)<sup>3</sup>. This document establishes the financial administrative requirements for all grants and loans administered by Ecology. Your agreement is covered by the version based on the effective date of your agreement.

### **2. Records, Audits, and Inspections - Section 22**

Grant files must be open for audit or inspection by Ecology, or by any duly authorized audit representative of the State of Washington, for a period of at least three (3) years after the final grant payment or loan repayment, or any dispute resolution hereunder. See full text in the General Terms and Conditions

Please expect us to ask questions about expenditures, how they are arrived at, supporting documentation, project implementation, and so forth. We want any audit to go well for everyone.

### **3. Contracting for Goods and Services - Section 10**

You may contract to buy goods or services related to its performance under this Agreement. All contracts for construction, purchase of goods, equipment, services, and professional architectural and engineering services shall be awarded through a competitive process, if required by State law. You are required to follow procurement procedures that ensure legal, fair, and open competition.

You must have a standard procurement process or follow current state procurement procedures. You may be required to provide written certification that they have followed their standard procurement procedures and applicable state law in awarding contracts under this Agreement.

Ecology reserves the right to inspect and request copies of all procurement documentation, and review procurement practices related to this Agreement. Any costs incurred as a result of procurement practices not in compliance with state procurement law or the Recipient's normal procedures may be disallowed at Ecology's sole discretion.

#### **4. Order of Precedence - Section 18**

In the event of an inconsistency in the agreement, this outlines the order of precedence of documents for resolution.

#### **5. Communication – Section 6**

It is essential that you keep in contact with your Project Manager. Ecology Project and Financial Managers have many agreements and are sometimes “stretched” for time. We want to provide ongoing good service for you, and we need your help.

- If a concern or change in scope of work arises, please contact us.
- If there is a fiscal matter involved, please “cc” your Financial Manager.
- Include your grant number in all communication and on all deliverables and invoice documents.

#### **6. Archaeological and Cultural Resources - Section 4**

If your project disturbs the ground an Inadvertent Discovery Plan is required prior to the start of any work on the project site. For capital construction projects or land acquisitions for capital construction projects, if required, recipients are required to comply with Governor Executive Order 21-02, Archaeology and Cultural Resources. Please contact your Ecology Project Manager. See full text in the General Terms and Conditions.

#### **7. Environmental Data Standards - Section 12**

If your project collects environmental data, a Quality Assurance Project Plan (QAPP), is required. Contact your Project Manager or Scott Tarbutton, OCRYBIP QAPP Coordinator (509-867-6534) for further information and a template. A QAPP must be completed and approved/signed by Ecology prior to sampling. See full text in the General Terms and Conditions.

#### **Managing the Agreement – Beyond General Terms:**

Your agreement may contain Agreement Specific Terms and/or Special Terms and Conditions. Become familiar with these if you have them.

**Amendments** - You may need to amend your agreement to update the timeline, scope of work and/or budget.

- Requests should be received at least 60 days prior to the proposed effective date.
- If an amendment is needed to extend the expiration date, requests should be received at least 60 days prior to the current end date of the grant agreement.
- Please contact both your Project Manager and Financial Manager.

- Amendments need to be signed prior to the agreement end date.

**EAGL** – For the duration of the agreement, all activity and documents will be done within EAGL. Please refer to the External User’s Manual to help manage your agreement in EAGL. If you have additional questions contact your Project Manager or Financial Manager for further assistance.

The EAGL [External User’s Manual](#)<sup>4</sup> can be found at the following link. Complete instructions for EAGL can be found under “My Training Materials” in the green ribbon at the top of each page in EAGL.

## Financial Management of PRPRs – Common Areas of Clarification:

**Conditionally Approved Expenses** - The Yellow Book has a section starting on page 29 for “Conditionally Approved Expenses”. These are generally allowable but need prior written approval. Examples are light refreshments, computers and other electronic devices, and equipment. The best way to deal with these is to write them in the agreement when it is developed.

**Purchasing and Contracts** - begins on page 48 of the Yellow Book. Be sure to follow the outlined processes in soliciting contracts and obtaining Goods and Services. Failure to do so may lead to expenses not being reimbursed to you.

**Indirect Rate** – We pay indirect based on your actual rate up to a maximum of 30% of salaries and benefits (“Administrative Requirements for Recipients of Ecology Grants and Loans” (Yellow Book) –Publication No 17-01-004-August 2017). This is a negotiated rate between the recipient and its Ecology funding program contact and is subject to Ecology approval.

Any property acquired under this Agreement, at the option of ECOLOGY, may become ECOLOGY's property and the RECIPIENT's liability to repay monies will be reduced by an amount reflecting the fair value of such property.

#### 24. SEVERABILITY

If any provision of this Agreement or any provision of any document incorporated by reference shall be held invalid, such invalidity shall not affect the other provisions of this Agreement which can be given effect without the invalid provision, and to this end the provisions of this Agreement are declared to be severable.

#### 25. STATE ENVIRONMENTAL POLICY ACT (SEPA)

If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Failure to Commence Work. ECOLOGY reserves the right to terminate this Agreement if RECIPIENT fails to commence work on the project funded within four (4) months after the effective date of this Agreement, or by any date mutually agreed upon in writing for commencement of work, or the time period defined within the Scope of Work.

In the event the RECIPIENT unjustifiably fails, in the opinion of ECOLOGY, to perform any obligation required of it by this Agreement, ECOLOGY may refuse to pay any further funds, terminate in whole or in part this Agreement, and exercise any other rights under this Agreement.

Despite the above, the RECIPIENT shall not be relieved of any liability to ECOLOGY for damages sustained by ECOLOGY and the State of Washington because of any breach of this Agreement by the RECIPIENT. If this Agreement is so terminated, the parties shall be liable only for performance rendered or costs incurred in accordance with the terms of this Agreement prior to the effective date of termination.

Non-Allocation of Funds. ECOLOGY's ability to make payments is contingent on availability of funding. In the event funding from state, federal or other sources is withdrawn, reduced, or limited in any way after the effective date and prior to the completion or expiration date of this Agreement, ECOLOGY, at its sole discretion, may elect to terminate the Agreement, in whole or part, or renegotiate the Agreement, subject to new funding limitations or conditions. ECOLOGY may also elect to suspend performance of the Agreement until ECOLOGY determines the funding insufficiency is resolved. ECOLOGY may exercise any of these options with no notification or restrictions, although ECOLOGY will make a reasonable attempt to provide notice.

In the event of termination or suspension, ECOLOGY will reimburse eligible costs incurred by the RECIPIENT through the effective date of termination or suspension. Reimbursed costs must be agreed to by ECOLOGY and the RECIPIENT. In no event shall ECOLOGY's reimbursement exceed ECOLOGY's total responsibility under the Agreement and any amendments.

If payments have been discontinued by ECOLOGY due to unavailable funds, the RECIPIENT shall not be obligated to repay monies which had been paid to the RECIPIENT prior to such termination.

RECIPIENT's obligation to continue or complete the work described in this Agreement shall be contingent upon availability of funds by the RECIPIENT's governing body.
