**Washington Cap-and-Invest Program
Auction #7 September 2024
Summary Report**

Issued on September 11, 2024

Background

Ecology held an auction of allowances on September 4, 2024. The auction included a current auction of 2023 and 2024 vintage allowances. No future vintage allowances were offered. Auction #7 included allowances consigned to auction.

Prior to today's certification of Auction #7, Ecology staff and the independent market monitor evaluated bids and determined that the auction process and procedures complied with the requirements of the Washington Regulation. The Market Monitor made the following determination:

The Market Monitor found that the auction was cleared consistent with the auction clearing rules in the regulation and appropriate economic logic. The Market Monitor confirmed the clearing price and clearing quantities by qualified bidder. The auction algorithm correctly applied requirements of the regulation covering the bid guarantee. The Market Monitor did not observe any breaches of communication protocols.

The Market Monitor recommends Ecology approve the September 2024 Auction results.

The Financial Services Administrator will distribute auction proceeds to the State of Washington and to consigning entities after all qualified bidder payments are received. Ecology will release information on October 2, 2024, in the Auction Public Proceeds Report, providing the final amount of proceeds generated from Auction #7.

Auction Results

All allowances offered for sale by Ecology were sold. The settlement price for current vintage allowances was \$29.88 per allowance. No future vintage allowances were offered in this auction.
