Chevron Tank Farm - Public comment period

Mon, March 23, 11:59 p.m. – Wed, April 22, 11:59 p.m., 2026

We Want to Hear from You!

The Washington State Department of Ecology has completed its First Periodic Review of the cleanup at the former Chevron Tank Farm at Port Washington Narrows. This review looks at site conditions and monitoring data to make sure the previous cleanup continues to protect people and the environment.

To request an ADA accommodation, contact Ecology at 360-407-7170 or Becky.Dilba@ecy.wa.gov; or visit ecology.wa.gov/ Accessibility. For WA Relay Service or TTY call 711 or 877-833-6341.

Provide Feedback

Your voice matters.

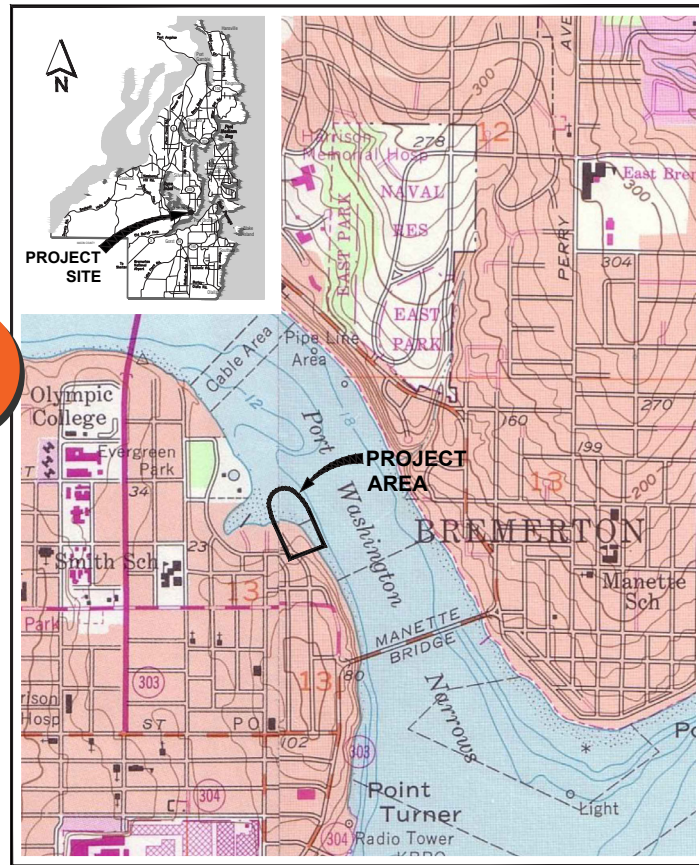

We invite you to comment on a document for the cleanup site at the former Chevron Tank Farm Port Washington Narrows property, which is adjacent to Evergreen Rotary park in Bremerton. Petroleum hydrocarbons in soil and groundwater remain at the site, however the institutional controls at the site remain effective in protecting human health and environment. The City of Bremerton is the current owner of the property.
