

Hansville Landfill Site

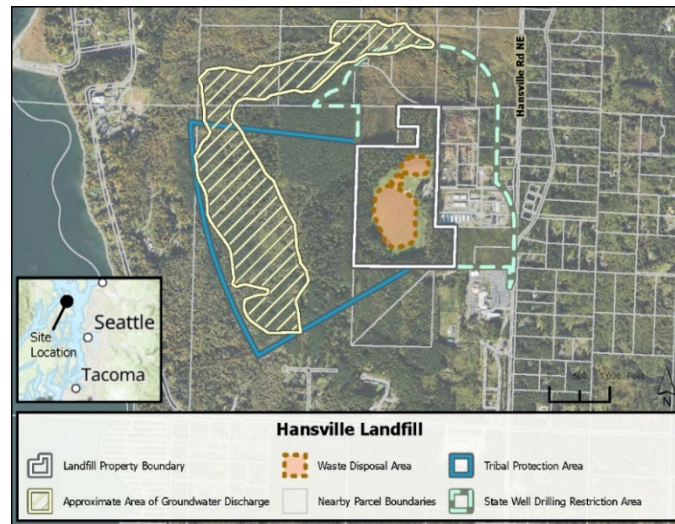

Periodic Review Report available for public comment

Public Comment Period: June 11 – July 10, 2026

The Hansville Landfill is located at 7791 NE Ecology Road, Kingston, WA. It operated as a municipal landfill serving the northern portion of Kitsap County from about 1962 until June 1989. The landfill has been closed. Since closure, the site has been maintained with a protective cap to keep rain from seeping in, a system that collects and treats landfill gas, and on-going monitoring of groundwater conditions is conducted on a regular basis.

Ecology invites comments on the periodic review. The periodic review is to ensure that these cleanup measures remain effective, that safeguards are working as intended, and that the site controls continue to protect people's health and the environment.

To request ADA accommodation or free translations and interpretation services, please contact Ecology at 425-393-5679, or email nancy.lui@ecy.wa.gov. For relay service or TTY call 711 or 877-833-6341 El Departamento de Ecología está comprometido a ofrecer servicios de idioma, incluidos traducción e interpretación, para personas cuyo idioma principal no es el inglés. Para solicitar estos servicios, envíe un correo electrónico a nancy.lui@ecy.wa.gov o llame al 425-393-5679. Si llama, pida que le conecten con un intérprete.
