Nov. 2, 2026, Washington Cap-and-Invest Program Compliance Report

Section 1. Introduction.

Covered entities and opt-in entities in the Washington Cap-and-Invest Program (Program) have an **annual obligation** to obtain and submit to the Department of Ecology (Ecology) the number of compliance instruments equal to 30 percent of their covered greenhouse gas emissions from the previous year. Each compliance instrument is equal to one metric ton of carbon dioxide equivalent (MT CO_2-e). Covered entities and opt-in entities also have an obligation to obtain and submit to Ecology the number of compliance instruments equal to any additional covered greenhouse gas emissions in revised greenhouse gas emissions reports (i.e., "**under-reported emissions obligation**").

This report shows information about all obligations in the Program due at the Nov. 2 compliance deadline in 2026, including:

- The amount of covered greenhouse gases that entities emitted in previous years, as reported to Ecology by the Nov. 2 compliance deadline.
- The amount of compliance instruments that entities needed to submit to fulfill their 2025 annual obligations.
- The amount of compliance instruments that entities needed to submit to fulfill under-reported emissions (URE) obligations.
- The amount of compliance instruments that entities surrendered to fulfill their 2025 annual obligations and URE obligations.

This information is static as of the Nov. 2 compliance deadline and does not reflect changes to entity names or covered greenhouse gas emissions data that occurred since then. For the most current covered greenhouse gas emissions data, visit the Washington state open data portal here: https://data.wa.gov/Natural-Resources-Environment/GHG-Reporting-Program-Publication/idhm-59de/about_data.

This report includes the following sections:

1. **Introduction**, an overview of this report's contents.
2. **Column descriptions**, definitions of terms used in this report's column headers.
3. **All obligations**, summary information about all obligations due by the Nov. 2 compliance deadline.
4. **2025 Covered emissions**, information about all covered emissions from 2025.
5. **2025 Annual obligations**, information about 2025 annual obligations.
6. **URE obligations**, information about URE obligations.

Section 2. Column descriptions.

- **Covered emissions**: The amount of covered greenhouse gases associated with the obligation (MT CO_2-e).
- **Entity ID**: The entity's six-character identification code in the Compliance Instrument Tracking System Service (CITSS).
- **Entity name**: The entity's legal name, as entered by the entity in CITSS.
- **Instruments due**: The number of compliance instruments needed to fulfill the obligation.
- **Instruments surrendered**: The number of compliance instruments surrendered to fulfill the obligation.
- **Source ID**: The four-digit code used to identify the source of the covered emissions.
- **Status**: The status of the obligation.
- **Type**: The kind of obligation that was due.
- **Year**: The year the covered greenhouse gas emissions occurred.

Section 3. All obligations.

Year	Type	Covered emissions	Instruments due	Instruments surrendered	Compliance rate
2023	Under-reported emissions	5,057	5,057	5,057	100.000%
2024	Under-reported emissions	9,792	9,792	9,792	100.000%
2025	Annual	57,526,714	17,250,917	17,250,131	99.995%
Total		57,541,563	17,265,766	17,264,980	99.995%

1.051% of all instruments surrendered (181,428) were offset credits from projects with direct environmental benefits to Washington state and not on Tribal lands.

Publication Number 26-14-106
