## Water Pollution Control Commission

P. O. Box 823 OLYLI MA, WASLINGYON 98501

TO: Dan	Keal	DATE: November 14, 1969
		Liberty Lake - Point
FROM:	Ron Lee	SUBJECT: Discharge Complaint

I have enclosed a copy of the nutrient analysis for the water sample we collected at Liberty Lake. In general, I feel the nutrient concentrations in this discharge are not a serious problem since most ground water discharges would have comparable nutrient levels. The data stands on its own and there is little one can say regarding it.
