1231 Willeys Lake Road	1231WLR0	1,2-Dibromo-3-Chloropropane	9/22/98	0.01	UJ	ug/L	NA	
1408 Willeys Lake Road	1408WLR0	1,2-Dibromoethane (EDB)	9/22/98	0.07	J	ug/L	0.05	
1415 Willeys Lake Road	1408WLR0	1,2-Dibromo-3-Chloropropane	9/22/98	0.01	U	ug/L	NA	
	1415WLR0	1,2-Dibromoethane (EDB)	9/22/98	0.01	U	ug/L	0.05	
	1415WLR0	1,2-Dibromo-3-Chloropropane	9/22/98	0.01	U	ug/L	NA	Well serves 1415 and 1425 Willeys Lake Road
	1415WLR0	1,2-Dibromoethane (EDB)	9/22/98	0.01 (D)	U	ug/L	NA	Well serves 1415 and 1425 Willeys Lake Road
1438 Willeys Lake Road	1415WLR0	1,2-Dibromoethane (EDB)	9/22/98	0.01 (D)	U	ug/L	0.05	Well serves 1415 and 1425 Willeys Lake Road
	1438WLR0	1,2-Dibromo-3-Chloropropane	10/8/98	0.01	U	ug/L	NA	
1454 Willeys Lake Road	1438WLR0	1,2-Dibromoethane (EDB)	10/8/98	0.01	U	ug/L	0.05	
	1454WLR0	1,2-Dibromo-3-Chloropropane	9/23/98	0.01	U	ug/L	NA	
1523 Willeys Lake Road	1454WLR0	1,2-Dibromoethane (EDB)	9/23/98	0.01	U	ug/L	0.05	
	1523WLR0	1,2-Dibromo-3-Chloropropane	9/23/98	0.01	U	ug/L	NA	
	1523WLR0	1,2-Dibromoethane (EDB)	9/23/98	0.01	U	ug/L	0.05	
1535 Willeys Lake Road	1523WLR0	1,2-Dibromo-3-Chloropropane	9/22/98	0.01	U	ug/L	NA	Well serves 1535 and 1533 Willeys Lake Road
	1535WLR0	1,2-Dibromoethane (EDB)	9/22/98	0.01	U	ug/L	0.05	Well serves 1535 and 1533 Willeys Lake Road

\* = Value may be unrepresentative - see comments section

D = Duplicate sample

U = the analyte was not detected at or above the reported result

J = The analyte was positively identified. The associated numerical result is an estimate.

NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.

NAF = Not analyzed for.

ug/L = micrograms per liter = ppb = parts per billion

NA = not applicable

\* Comments --

Deviations in sampling procedures occurred at 4 sampling locations:

Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head. Site later re-sampled by WDOE and higher levels of EDB (0.55 ppb). The later value is probably more accurate.

The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.  
A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden -- thus the samples were filtered.

**TABLE # 2: NITROGEN PESTICIDE RESULTS**  
**PHASE 1 & 2 SAMPLING**

ANALYTICAL METHOD: SW8085

\* = Value may be unrepresentative - see comments section  
D = Duplicate sample  
U = the analyte was not detected at or above the reported result  
J = The analyte was positively identified. The associated numerical result is an estimate.  
NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.  
NAF = Not analyzed for.  
ug/L = micrograms per liter = ppb = parts per billion  
NA = not applicable

\* Comments --  
Deviations in sampling procedures occurred at 4 sampling locations (does not apply to above sites) :  
Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head.  
The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.  
A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden - thus the samples were filtered.

\* = Value may be unrepresentative - see comments section

D = Duplicate sample

U = the analyte was not detected at or above the reported resulted result

J = The analyte was positively identified. The associated numerical result is an estimate.

NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.

NAF = Not analyzed for.

ug/L = micrograms per liter = ppb = parts per billion

NA = not applicable

\* Comments -- (not applicable to above sites)

Deviations in sampling procedures occurred at 4 sampling locations:

Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head.

The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.

A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden

-- thus the samples were filtered.

\* Comments --

Deviations in sampling procedures occurred at 4 sampling locations:

Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head.

The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems

A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 BirchBay - Lynden -- thus the samples were filtered

\* = Value may be unrepresentative - see comments section  
D = Duplicate sample  
U = the analyte was not detected at or above the reported result  
J = The analyte was positively identified. The associated numerical result is an estimate.  
NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.  
NAF = Not analyzed for.  
ug/L = micrograms per liter = ppb = parts per billion  
NA = not applicable

\* Comments --  
Deviations in sampling procedures occurred at 6 sampling locations:  
Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head.  
The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.  
A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden -- thus the samples were filtered.  
Filter could not be bypassed at 8691 Weidkamp  
Filter bypassed for all but herb/pest samples at 8591 Weidkamp.

**TABLE # 7: 1,2-DCP RESULTS (EXCERPT FROM VOC TABLE)  
PHASE 1 AND 2 SAMPLING**

ANALYTICAL METHOD: EPA 8260

\* = Value may be unrepresentative - see comments section

D = Duplicate sample

U = the analyte was not detected at or above the reported result

J = The analyte was positively identified. The associated numerical result is an estimate.

NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.

NAF = Not analyzed for.

ug/L = micrograms per liter = ppb = parts per billion

NA = not applicable

\* Comments --

Deviations in sampling procedures occurred at 4 sampling locations:

Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay - Lynden were sampled through an existing garden hose because there was no access to tap head or well head.

The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.

A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden -- thus the samples were filtered.

**TABLE # 8 : VOC RESULTS  
PHASE 1 SAMPLING**

ANALYTICAL METHOD: EPA 8260

			* = Value may be unrepresentative - see comments section						
			D = Duplicate sample						
			U = the analyte was not detected at or above the reported resulted result						
			J = The analyte was positively identified. The associated numerical result is an estimate.						
			NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.						
			NAF = Not analyzed for.						
			ug/L = micrograms per liter = ppb = parts per billion						
			NA = not applicable						
			* Comments --						
			Deviations in sampling procedures occurred at 4 sampling locations:						
			Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head.						
			The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.						
			A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden -- thus the samples were filtered.
