* = Value may be unrepresentative - see comments section
D = Duplicate sample
U = the analyte was not detected at or above the reported result
J = The analyte was positively identified. The associated numerical result is an estimate.
NJ = There is evidence that the analyte is present. The associated numerical result is an estimate.
NAF = Not analyzed for.
ug/L = micrograms per liter = ppb = parts per billion
NA = not applicable

* Comments --
Deviations in sampling procedures occurred at 4 sampling locations:
Samples collected at 1127 Birch Bay - Lynden and 1505 Birch Bay -Lynden were sampled through an existing garden hose because there was no access to tap head or well head.
The volatile sample collected at 1121 Willeys Lake Road had excessive amounts of air due to tap head problems.
A filter system could not be bypassed based on the plumbing design at the wellhead located at 1603 Birch Bay-Lynden -- thus the samples were filtered.

TABLE # 10: SPLIT SAMPLES - Comparison of Ecology/Owner's Results
