

General Application for Beneficial Use Exemption

WAC 173-350-200

(For official use only) Application Number
 Date Received

Please read carefully before completing this application. The ability to electronically complete this form is dependent on software installed by the user. All functions such as expandable text fields, tab-to-next field, and other automated actions should be fully operational in MS Word 97 or later version. Compatibility with other text processing formats cannot be guaranteed. Information may be submitted as a numbered attachment but the location of the required material must be indicated in the appropriate field. A hard copy of this form is available by contacting Ecology's Beneficial Use Determination Coordinator at beneficialuseprogram@ecy.wa.gov or by calling (360) 407-6000.

PART I. Applicant Information

Name of Applicant Company Name: Unified Business Identifier Number: Applicant's Position in Company:	Applicant is: <input type="checkbox"/> Waste Generator <input type="checkbox"/> Broker <input type="checkbox"/> End-user <input type="checkbox"/> Other(specify)
Applicant Mailing Address: Street: City: State: Zip:	Applicant Phone: FAX: e-mail address:
Name of Responsible Official in Company (see WAC 173-350.715(3) for appropriate evidence of authority): Position in Company:	

PART II. Details of Waste and Beneficial Use Proposal

Information to be Provided (Please provide the information on this form or indicate separate attachment)

A. Identify the solid waste and proposed beneficial use.
B. Identify aspects of the waste stream that make it beneficial for the use proposed.
C. Provide an estimate of the volume or tonnage of solid waste to be used annually.
D. Provide a complete description of how the waste will be transported from the point(s) of generation to the location(s) of the proposed beneficial use.
E. Identify any offsite intermediate storage location(s). Include details on the methods and duration of storage.

F. Provide a complete description of the methods and duration of waste storage at a beneficial use location prior to use.

G. Attach a completed Environmental Checklist, per the requirements of chapter 197-11 WAC, SEPA Rules. (A checklist can be found at <http://www.ecy.wa.gov/programs/sea/sepa/forms.htm>)

Part III. Additional requirements for proposed beneficial use of solid waste used as soil amendments

(Please provide the information on this form or indicate separate attachment)

A. Demonstration that the waste meets the standards for metals required by the Washington State Department of Agriculture (WSDA) for registered commercial fertilizers by following the procedures of WAC 16-200-7062 through 7064, *Feeds, Fertilizers, and Livestock Remedies*.

B. Demonstration of how the solid waste will be applied at an application rate and in a manner that does not degrade the soil and ensures protection of ground and surface water. Include a discussion of the following:

- Concentration of available nutrients and micronutrients in the soil amendment
- Other solid waste applied to the land
- Residual nutrients at the application sites(s)
- Additional sources of nutrients
- Soil pH
- Soil type
- Crop type
- Vertical separation from ground water
- Waste pH
- Other information necessary for demonstration

(A separate attachment maybe used for more information.)

C. Describe the procedures proposed for evaluating application sites to ensure consistency with the terms and conditions of chapter 173-350-200 WAC.

PART IV. Generator Information

(Complete for each generator using Additional Generator Form Attachment A)

Number of Generators Represented by this application:

Applicant is Generator (Skip to "Information to be Provided")

Generator 1:

Company Name:

Unified Business Identifier Number:

Name of Responsible Official in Company:

Position in Company:

Generator Mailing Address:

Street:

City:

State: Zip:

Generator Phone:

FAX:

e-mail address:

Information to be Provided

(Please provide the information on this form or indicate separate attachment)

A. List all product(s) made by the facility.

B. List all of the feedstocks used to manufacture the product(s).

C. Provide a schematic and text summary of the generating facility's operations, including all points where waste are created, treated or stored. Identify materials or points in the process that contribute or potentially could contribute contaminants or pollutants to the waste to be beneficially used.

D. List the physical and chemical characteristics of the waste stream proposed for beneficial use, if more than one generator.

E. Provide details of how the waste has been designated to determine that it is not hazardous waste. Procedures for proper designation waste are located in chapter 173-303-070 WAC, *Dangerous Waste Regulations*. Include information on testing, if any, and attach sample results if applicable.

Part V. Signature and Verification of Applicant

(Refer to chapter 173-350-715(3) for appropriate evidence of authority)

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this application and all attachments and that, based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the information is true accurate and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment.

Additional Generator Information for Beneficial Use Exemption Application

(Information must be included for each generator. Please duplicate this form as necessary)

Additional Generator	
Generator: Company Name: Unified Business Identifier Number:	Name of Responsible Official in Company: Position in Company:
Generator Mailing Address: Street: City: State: Zip:	Generator Phone: FAX: e-mail address:
Information to be Provided (Please provide the information on this form or indicate separate attachment)	
A. List all product(s) made by the facility.	
B. List all of the feedstocks used to manufacture the product(s).	
C. Provide a schematic and text summary of the generating facility's operations, including all points where waste are created, treated or stored. Identify materials or points in the process that contribute or potentially could contribute contaminants or pollutants to the waste to be beneficially used.	
D. List the physical and chemical characteristics of the waste stream proposed for beneficial use, if more than one generator.	
E. Provide details of how the waste has been designated to determine that it is not hazardous waste. Procedures for proper designation waste are located in chapter 173-303-070 WAC, <i>Dangerous Waste Regulations</i> . Include information on testing, if any, and attach sample results if applicable.	

Additional Generator	
Generator: Company Name: Unified Business Identifier Number:	Name of Responsible Official in Company: Position in Company:
Generator Mailing Address: Street: City: State: Zip:	Generator Phone: FAX: e-mail address:
Information to be Provided (Please provide the information on this form or indicate separate attachment)	
A. List all product(s) made by the facility.	
B. List all of the feedstocks used to manufacture the product(s).	
C. Provide a schematic and text summary of the generating facility's operations, including all points where waste are created, treated or stored. Identify materials or points in the process that contribute or potentially could contribute contaminants or pollutants to the waste to be beneficially used.	
D. List the physical and chemical characteristics of the waste stream proposed for beneficial use, if more than one generator.	
E. Provide details of how the waste has been designated to determine that it is not hazardous waste. Procedures for proper designation waste are located in chapter 173-303-070 WAC, <i>Dangerous Waste Regulations</i> . Include information on testing, if any, and attach sample results if applicable.
