

## WATER RESOURCES PROGRAM

### Showing of Compliance with RCW 90.44.100(3)

Water Right Certificate or Permit Number:

Parcel tax identification number:  
Landowner(s)  
name:

County:

Lat.Long. of well:     **Original:**

**New:**

To amend the associated water right permit or certificate when drilling an additional or replacement well, you must submit this form (signed and notarized) to the Department of Ecology to affirm that you have met the statutory criteria of RCW 90.44.100(3). Please attach the water well report for the new well and any other information you have to support this affidavit.

**Affidavit:**

I, \_\_\_\_\_, do certify that the well described in the attached water well report has been drilled as an additional or replacement well for use under Water Right Number \_\_\_\_\_. This notice and attached documents describe and support my assertion that the replacement or additional well complies with RCW 90.44.100(3) (a-g) and RCW 90.44.100(4):

**Please check one:**

- This is an additional well (Attach well report)
- This is a replacement well (Attach well report for new Well & Decommissioning report for old well)

**Please confirm the following:**

- a. The new well(s) tap the same body of public groundwater as the original well.
- b. If a replacement well is constructed, use of the original well(s) shall stop and the original well(s) properly decommissioned.
- c. The combined withdrawal of water from all wells authorized by the water right certificate does not enlarge the water right developed (perfected) and maintained by use of water (i.e. no increase in total instantaneous (Qi) or annual (Qa) withdrawals).
- d. The construction and use of the new well(s) does not interfere with or impair water rights with an earlier priority date.
- e. The new well(s) is located no closer than the original well to a well or surface water body with which it might interfere.
- f. The new well was constructed in compliance with chapter 18.104 RCW and chapter 173-160 WAC, as well as any other conditions specified.
- g. The new well(s) is located within the area described as the point of withdrawal in the public notice published for the original application for water right, or the most current legal description published for the right.

Therefore the well is in compliance with the requirements for a statutorily granted amendment to the water right permit or certificate.

*I understand the acceptance of this affidavit, and any attachments, by the Department of Ecology shall not be construed as affirming the validity of any water right permit or certificate. The responsibility to comply with RCW 90.44.100(3) is with the water right permit or certificate holder asserting an amendment pursuant to RCW 90.44.100(3).*

_____ Name or Authorized Agent	_____ Email:
_____ Address	_____ City, State, ZIP
_____ Relationship to Water Right holder	_____ Phone
_____ Signature	_____ Date

**Acknowledgement:**

State of Washington  
County of \_\_\_\_\_

*I certify that I know or have satisfactory evidence that \_\_\_\_\_ is the person who appeared before me, and said person acknowledged that (he/she) signed this affidavit and acknowledged it to be (his/her) free and voluntary act for the uses and purposes mentioned in the affidavit.*
