Vessel in compliance with State Bunkering Regulations.

Vessel in violation of State Bunkering Regulations as identified, corrective measures required.

Copy Received: PIC Rec. Vsl: PIC Del. Vsl: Date:
This chapter establishes minimum standards for safe bunkering operations. It applies to all bunkering operations that involve the transfer of oil by a facility.

(1) The tanker man, the receiving vessel's person in charge, shall maintain records, such as log book entries, maintenance procedures, and training materials.

(2) Owners and operators shall ensure that records are kept as required by this chapter and federal regulations.

WAC 317-40-130 Oil spills.

(1) At least once every 30 days, the receiving vessel's person in charge shall notify the receiving vessel's representative's English proficiency, and he or she shall request an interpreter.

WAC 317-40-080 Drone procedures.

(1) Owners and operators shall ensure that records are kept as required by this chapter and federal regulations.

WAC 317-40-140 Compliance.

(1) Upon request by the office, an owner or operator of a receiving or delivering vessel involved in bunkering in state waters shall demonstrate compliance with this chapter. The owner or operator shall be able to provide the office any or all of the following: (a) the receiving vessel's official and engineering logs; (b) written company policies; (c) standing orders; (d) the receiving vessel's prepurchase plan; (e) each vessel's declaration of inspection form; (f) the vessel's oil transfer processes; and (g) training materials.

WAC 317-40-150 Enforcement.

(1) Failure to comply with the requirements of chapter 88.46 RCW, the provisions of this chapter, or any order or administrative action relating to the enforcement of this chapter, the office may: (1) Order an immediate shutdown of the bunkering procedure; (2) Require additional personnel; (3) Refer the violation to the appropriate enforcement authority under chapter 88.46.080 RCW; or (4) Take other appropriate actions to address the violation.
