

EPCRA Section 311: Safety Data Sheet Reporting

Community right-to-know number (12 digits, begins with CRK or WA):

Under the Emergency Planning & Community Right-to-Know Act (EPCRA) Section 311, you must provide hazard information for certain chemicals at your facility.

This is a one-time reporting requirement, unless there is a significant change in the status of a reportable chemical (i.e., a change in the safety data sheet [SDS]). If you have a change in your chemical's SDS, or if you acquire a new chemical with any of the hazards listed below, you must submit a list of hazards for those chemicals within 90 days.

You must report on both:

- Extremely hazardous substances (EHS) at or above the threshold planning quantity. If you are reporting a new EHS, you must also fill out a [302 report](#).¹
- Any of the hazardous chemicals in excess of 10,000 pounds, unless they're exempt from EPCRA reporting.

Email or mail this form to Ecology. Also send copies to your [Local Emergency Planning Committee](#)² (LEPC) and fire department.

ADA Accommodation Requests

To request an ADA accommodation, contact Ecology by phone at 360-407-6700 or email at hwtrpubs@ecy.wa.gov, or visit <https://ecology.wa.gov/accessibility>. For Relay Service or TTY call 711 or 877-833-6341.

Hazard Categories

Check off all of the hazard categories that apply. The categories are not mutually exclusive; a chemical can fall under several categories.

Chemical Name	CAS Number	Physical Hazards	Health Hazards
		Explosive Flammable Oxidizer Self-reactive Pyrophoric (liquid or solid) Pyrophoric gas Self-heating Organic peroxide Corrosive to metal Gas under pressure (compressed gas) Contact with water emits flammable gas Combustible dust Hazard not otherwise classified	Acute toxicity Skin corrosion or irritation Serious eye damage or eye irritation Respiratory or skin sensitization Germ cell mutagenicity Carcinogenicity Reproductive toxicity Specific target organ toxicity Aspiration hazard Simple asphyxiant Hazard not otherwise classified
