

Streamflow Restoration Competitive Grants Pre-Application Meeting Request

Instructions: 1) Complete this form with information on your proposed project to the best of your ability. Items with an "*" are required. The information you provide helps us identify the appropriate staff to join your pre-application meeting but will not be used in our review of a grant application.

2) Email your completed form to Ecology at sfrprjgrants@ecy.wa.gov and include "meeting request" in the subject line of the email.

3) Ecology will contact you to discuss scheduling. Meetings are scheduled based on staff availability. Projects with a water right acquisition component will be prioritized.

Information about Potential Applicant

*Organization:

*Primary contact person:

*Phone:

Alt. phone:

*Email:

Other meeting attendees:

*List at least 3 proposed meeting dates/times. (Allow at least one week from the date you submit the form to allow Ecology time to review the form and identify staff to take part.)

Information about Project

*WRIA(s) [[find your WRIA](#)]:

*Project type (Check all that apply):

Water right acquisition

Feasibility study

Water storage

Environmental monitoring

Altered water management or infrastructure

Other (Specify):

Habitat improvement

*Is the proposed project associated with another previously funded project? Yes No

If yes, was it funded with a streamflow restoration grant? Yes No

If yes, what is the project name/number?

ECY 070-741 (10/2023) To request ADA accommodation including materials in a format for the visually impaired, call Ecology Water Resources Program at 360-407-6872. People with impaired hearing may call Washington Relay Service at 711. People with speech disability may call TTY at 877-833-6341.

***Water Right Acquisition Pre-Application Meeting Requirements**

Instructions: This section **only** applies if your project involves a water right acquisition. At least one week prior to the confirmed meeting time, you must submit the following:

1. A clear description of the project including the water right number, locations of the historical point of diversion, and the stream reaches where the benefits are expected to occur.
2. The timing and quantity of additional streamflow (cubic feet per second) and volume (acre-feet) the project is expected to provide.
3. A proposed price in dollars per acre-foot and documentation supporting the price.
4. An executed change application or a signed declaration of project support by the water right holder [and the landowner, if they are different (see Chapter 1 of the [2024 grant guidance](#))].
