Form 070-802

<p>Instructions</p> <p>Each reporting entity claiming specified facilities or units for imported or exported electricity must register its anticipated specified sources as part of their greenhouse gas report to obtain associated emission factors.</p> <p>Effective 1/3/2025, specified sources must be registered by February 1st (WAC 173-441-124(3)(f)).</p> <p>All specified sources associated with imported power or exported power, including any zero emission resources, must be registered as well as any new and existing anticipated specified sources for asset-controlling suppliers (ACS).</p> <p>Ecology will use this information to calculate an emission factor for each specified source for use in the emissions data report. The emission factors will be published on Ecology's website and made available to reporting entities in the EPE Reporting Tool.</p>
<p>Reporting Error - Verify Entry</p> <p>Many cells in this Tool contain data validations and formulas that can restrict submission in WEDGE until corrected in an effort to maintain data integrity and provide instantaneous feedback on reporting errors.</p> <p>Reported data that is required but left incomplete, or inputs that are not recognized will result in a validation error.</p> <p>In addition, corrupt, broken, or non-executable formulas and functions can return a variety of standard Excel error messages. If either of these situations arise the Tool cannot be submitted in WEDGE.</p>
<p>ADA Accessibility</p> <p>To request an ADA accommodation, contact Ecology's ADA Coordinator by phone at 360-407-6831 or email Ecology's Greenhouse Gas Reporting and Verification Team at GHGReporting@ecy.wa.gov, or visit https://ecology.wa.gov/accessibility. For Relay Service or TTY call 711 or 877-833-6341.</p>

<p>Color code</p> <p>Light green cells require reporter input</p> <p>Light blue cells are optional for a reporter to complete</p> <p>Light gray cells calculate based on reporter input or are non-input</p>
