SUPPORT FAMILY-WAGE JOBS IN LONGVIEW, WA

Dear Agency Staff,

RE: Millennium Bulk Terminals Environmental Review

I support the proposed port facility in Longview, WA. The environmental review of this project has taken too long and it's time to allow Millennium to invest \$680 million into Southwest Washington.

The new coal export facility will revitalize an old, under-utilized industrial site. Millennium is cleaning up the site and the new project will create hundreds of family wage jobs. Washington can have economic development while still protecting the environment.

The draft EIS for this project is extremely thorough. It's now time to put Southwest Washington to work. Please publish the final EIS quickly and issue the permits.

Thank You

Attn: Cowlitz County and the WA Department of Ecology
Re: Draft EIS comments of proposal in Longview

To Whom it May Concern:

Despite all the rhetoric to the contrary about coal exports, I firmly believe you can have both good family-wage jobs and be good stewards of the environment. It doesn't have to be a choice of one over the other.

This draft EIS is exhaustive and quite frankly, overreaching. For instance, because the proposal is a terminal proposal, the use of the bulk commodity by a third party is a superseding and intervening cause to the combustion of coal. As a result of these superseding causes, the construction and operation of the terminal is not a proximate cause of the combustion of coal. Enough already!

I applaud the agencies work on this permit process. The results will provide a more-than thorough "hard look" at the possible impacts of the Millennium Project in Longview which is needed to keep things moving ahead. Thank you.

Sincerely,

Dane Ashley

RE: Millennium Bulk Terminals-Longview SEPA Draft Environmental Impact Statement

"I do not support the Millennium Bulk Terminal project, and I urge you to take the 'no action' alternative in the Millennium Bulk Terminals Draft Environmental Impact Statement (EIS). This project would endanger the health and safety of the surrounding community while dramatically increasing carbon pollution."

Sincerely,

Jordan Krueger

Millennium Bulk Terminals EIS
c/o ICF International
710 Second Ave, Suite 550
Seattle, WA 98104

Re: Comment on Draft EIS for the Millennium Bulk Terminals Longview Proposal

Dear Washington Department of Ecology and Cowlitz County Leaders,

People of faith around the State of Washington are doing our part to reduce use dirty fossil fuels. From our earliest scriptures to the recent encyclical by Pope Francis *Laudato Si*, we are told that all people of good will have a moral responsibility to protect and care for God's creation. We expect that our leaders will make wise decisions for Washington's families, land, air, and water on behalf of God's creation and the common good.

This letter is to ask you to deny the proposed Millennium Bulk Terminals in Longview, WA.

The Draft Environmental Impact Statement clearly finds that this huge coal export project on the Columbia River will harm the health and economic vitality of Longview and other communities along the train tracks. To make matters worse, there is almost no discussion of what little mitigation is possible for the effects of coal dust, derailments, increased train traffic, air pollution, noise, harmful impacts on tribal culture and treaty fishing rights, and vehicle delay at railroad crossings.

Most importantly, the DEIS acknowledges that climate pollution is a destructive end product of coal export. The cost and damage of all aspects of this ill-conceived project are not worth the risks and expense to our neighbors and ourselves. **This permit should be denied.**

Rather than use the land and water of the Columbia Basin for a polluting and dangerous fossil fuel project, we ask that you steward our region toward sustainable and healthy growth. Do not put the burden of risky operations, global warming pollution, and un-mitigatable ecosystem destruction on the people and future generations of the Northwest.

Please choose the "no action alternative" and deny the Millennium Bulk Terminals permit.

Thank you,

Adina Parsley
20420 Marine Dr, Apt P2
Stanwood, WA 98292

Energy Action Coalition Comment Language:

To: Washington State Department of Ecology

From: _____

I support the "no action" alternative for Millennium Bulk Terminals' facility in Longview, WA. Millennium's proposed coal export terminal would harm our community health and safety, air and water quality, and natural resources. Please make the right choice for our climate, our environment, and the health of communities in the Pacific Northwest. I urge your agencies to protect our region and say no to coal exports in Longview.

Fuse Comment Language:

Dear Army Corps of Engineers, Cowlitz County, and Dept of Ecology,

RE: Revise Coal Export DEIS to Protect Health, Safety, & Environment

I support the “no action” alternative in the Millennium Bulk Terminals Draft Environmental Impact Statement (EIS). Millennium’s proposed coal export terminal would harm communities throughout the Northwest, with the most intense impacts felt in Longview, Washington, near the proposed terminal site. The project harms our health and safety, air and water quality, and natural resources. I urge your agencies to protect public health and natural resources. Reject coal export.

Climate Change: Washington state is a national leader in the fight to combat climate change. Considering rail and vessel emissions alone, this project would be one of the biggest greenhouse gas emitters in Washington state. Coal export undermines the state’s hard work to combat climate change and protect future generations.

Health & the Environment: The Draft EIS reveals many serious impacts to human health and the environment. It dismisses other impacts without a valid basis. The Final EIS should incorporate the best available science, real world examples, and a comprehensive Health Impact Assessment. The agencies undercut public, tribal, and agency input by failing to complete a Health Impact Assessment before releasing the Draft EIS.

Rail Traffic: The Draft EIS demonstrates Millennium would have a severe impact on rail and road congestion. Because Millennium cannot fix this significant harm—from mine to terminal—the agencies should deny permits.

Weak & Unenforceable Mitigation: In some instances, the Draft EIS claims mitigation can reduce coal dust, rail traffic, and other project impacts. For example, to mitigate coal dust from the terminal, the Draft EIS proposes a reporting process for coal dust complaints. This borders on offensive. A phone call or email to complain about coal dust fouling a person’s lungs, home, and river is not “mitigation.” The agencies should revise the Draft EIS and remove inadequate, unsupported, and unenforceable mitigation.

Thank you,

Environmental Action Comment Language:

TO: US Army Corps of Engineers, WA Dept. of Ecology and Cowlitz County:

RE: Millennium Bulk Terminals Draft Environmental Impact Statement (EIS)

I call on you to support the “no action” alternative, and to reject Millennium’s proposed coal export terminal. This project would harm our climate, air and water quality, with the most intense impacts felt by residents of Longview, WA and surrounding towns. To save our climate and communities, we must keep more than 80% of fossil fuels in the ground and finance a just transition to 100% clean energy by 2050. Those goals are incommensurate with new coal export terminals like Longview.

Table B-15. Mass-Mail Campaign G: Environmental Action
