

**In the matter of adopting a State
Implementation Plan Revision to include the
Revised Northwest Clean Air Agency
Regulation 100-400 in the Washington State
Implementation Plan.**

SIP ADOPTION ORDER

In this State Implementation Plan (SIP) revision, the Northwest Clean Air Agency (NWCAA) requests that the Washington State Department of Ecology (Ecology) submit to the Environmental Protection Agency (EPA) changes to NWCAA's air quality Regulation (Regulations 100-400). These changes will update NWCAA's portion of the SIP and this SIP submittal will make these portions of NWCAA Regulation 100-400 federally enforceable.

Ecology offered the public an opportunity to request a hearing and comment on the draft State Implementation Plan (SIP) Revision to include the Revised Northwest Clean Air Agency Regulation 100-400 in the Washington SIP. We did not receive a request to hold a public hearing. We accepted comments from November 12, 2019, through December 29, 2019.

Ecology met all state and federal procedural requirements for public outreach by taking the following actions:

- Published a legal notice in three newspapers on November 12, 2019. This allowed Ecology to meet the requirement for 30 days of advance notice to request a hearing.
- Announced the public comment period and public hearing date on our online public involvement calendar.
- Published notice on our website.
- Provided an opportunity for the public to request a hearing by December 13, 2019. We did not receive a request for a hearing, so we did not hold one, as allowed by 40 CFR 51.102.

IT IS HEREBY ORDERED that the referenced documents, constituting the revision, are approved and adopted by the Department of Ecology as part of the Washington State Implementation Plan. All provisions of the Washington State Implementation Plan inconsistent with the attached documents are superseded.

Laura Watson, Director
Department of Ecology
